Description

Minutes 6.4.2018

A motion was made and seconded, (B. Bergman, J. Wamser) to approve the Woodleaf Reserve addition No. 2 development agreement contingent upon the final review of the City Attorney and Engineering staff and establish the letter of credit/surety at \$1,297,475.00 in a form acceptable to the City Attorney. Motion Passed: 6-For, 0-Against.

9. Discussion and Possible Action Regarding the City of Waukesha Notice to Increase Sewer Fees by \$18.60 per Quarter Beginning June 2018

Mr. Weigel and Ms. Mueller were present for this item. Mr. Weigel stated he was before the Council at the end of last year to raise the rates to match what Waukesha was charging certain City residents. He said he recently received notice that they are raising their rates again starting the next quarter. He said it was his understanding that the utility is to pass the increases to the residents in the service area but wanted to make sure the Council was comfortable with this since it was recently done.

Ms. Mueller stated the increase most likely is due to the infrastructure for the return back to Lake Michigan. She said Waukesha is adding lift stations and piping routes.

Mr. Kara asked how it came to be that we are utilizing the City of Waukesha water and sewer. Mr. Weigel stated the Regional Planning Commission determines the service areas and what would be most cost effective. Mr. Kara stated he receive a complaint about the increase and feels future increases should be done on an annual basis. He said everyone in the City of Pewaukee should be paying the same rate.

Ms. Brown stated new homes are not allowed to hook up to Waukesha water any more, only to sewer. Mr. Weigel stated that is due to the Great Lakes Compact Agreement that the City of Waukesha entered into. Attorney Riffle stated we are under contract with the City of Waukesha and must pay what they bill us. He said the only relief is to go before the PSC. Mr. Weigel stated this was not an outlandish rate. Mr. Weigel explained the differences between metered and unmetered rates.

A motion was made and seconded, (J. Kara, C. Brown) to establish a practice policy to adjust the Waukesha City water and sewer billings once a year, having the City temporarily subsidizing the increase and delaying the recent increase of \$18.60 to 2019. Motion Failed: 3-For (J. Kara, C. Brown and B. Dziwulski) 3-Against (B. Bergman, R. Grosch and J. Wamser). Mayor Bierce voted against the motion to break the tie vote.

Ms. Brown requested staff talk to the City of Waukesha about the timeliness of their increase notices.

- Discussion and Possible Action Regarding Applications for Outdoor Activity on Premises Where Alcoholic Beverages are Consumed
  - 10.1 5 O'Clock Club
  - 10.2 Andrea's Red Rooster
  - 10.3 Aqua Beauty Lounge
  - 10.4 Boomers Sports Pub & Grill
  - 10.5 Curly's Waterfront
  - 10.6 Edgewater
  - 10.7 Gina's Sports Dock
  - 10.8 Point Burger Bar
  - 10.9 Smokey's Musky Shop

- 10.10 The Station Pub & Grill
- 10.11 Waukesha Gun Club
- 10.12 Wonderland Tap

Mayor Bierce stated this item will be treated similarly to the consent agenda; if anyone wished to discuss a specific establishment it could be pulled for discussion and all others could be approved as a group.

Ms. Tarczewski stated she had concerns related to Item 10.9 related to Smokey's Musky Shop and asked that it be pulled for discussion.

Mr. Bergman stated the outdoor entertainment permits were discussed at Plan Commission and were recommended for approval.

# A motion was made and seconded, (J. Wamser, B. Bergman) to concur with the Plan Commission and approve the remaining Outdoor Entertainment permits.

Motion Passed: 6-For, 0-Against.

Ms. Tarczewski stated she was concerned because Smokey's premise description for their beer license listed the entire property. She said it has never been past practice to allow intoxicating beverages on someone's entire property. She stated premise descriptions have always been more specific and usually includes screening.

# A motion was made and seconded, (R. Grosch, B. Dziwulski) to table the Outdoor Entertainment Permit for Smokey's Musky Shop until the area is better defined. Motion Passed: 6-For, 0-Against.

10. Discussion and Possible Action to Make Appointments to Various Boards, Committees and Commissions

Mayor Bierce stated he did not have anyone to present at this time.

11. Discussion and Possible Action Related to Possibly Cancelling the First Meeting in July Due to Independence Day

A motion was made and seconded, (B. Bergman, J. Wamser) to cancel the July 2<sup>nd</sup>, 2018 Common Council meeting due to the holiday. Motion Passed: 6-For, 0-Agaisnt.

12. Adjournment

A motion was made and seconded, (B. Dziwulski, C. Brown) to adjourn the meeting at 9:19 p.m. Motion Passed: 6-For, 0-Against.

Respectfully Submitted,

Kelly Tarczewski Clerk/Treasurer

# CITY OF PEWAUKEE COMMON COUNCIL AGENDA ITEM 3.4.

**DATE:** June 18, 2018

**DEPARTMENT:** PW - Water/Sewer

**PROVIDED BY:** Jane Mueller, Utility Manager; Renee Reed, Utility Billing Clerk; Jeffrey Weigel, PWD

#### **SUBJECT:**

Discussion and Possible Action to Approve **Resolution 18-06-15** recognizing the 2017 Compliance Maintenance Annual Report (CMAR) for the City Sanitary Sewer System.

#### **BACKGROUND:**

Wisconsin DNR requires operators of Sewer Utilities to present an annual Compliance Maintenance Annual Report or CMAR annually to the respective governing board which reviews and approves same via resolution.

#### FINANCIAL IMPACT:

There is no fiscal impact. This is required state compliance report.

#### **RECOMMENDED MOTION:**

Common Council adopts Resolution 18-06-15 attendant to the 2017 CMAR.

#### **ATTACHMENTS:**

Sewer Use Ordinance

| Sanitary Sewer Collection Systems   |
|---|
| <ol> <li>Capacity, Management, Operation, and Maintenance (CMOM) Program</li> <li>Do you have a CMOM program that is being implemented?</li> <li>Yes</li> </ol>   |
| o No  |
| If No, explain:   |
|   |
| 1.2 Do you have a CMOM program that contains all the applicable components and items  |
| according to Wisc. Adm Code NR 210.23 (4)?  |
| • Yes   |
| <ul><li>No (30 points)</li><li>N/A</li></ul>  |
| If No or N/A, explain:  |
|   |
| 1.3 Does your CMOM program contain the following components and items? (check the components and items that apply)  ☐ Goals [NR 210.23 (4)(a)]  |
| Describe the major goals you had for your collection system last year:  |
| Clean 33% sanitary sewer & inspect 33% manholes annually. Rehab sewer mains based on cleaning/tv reports. Compile sewer reports to put together repair plan. Establish comprehensive FOG program including grease trap inspection. Update sewer use ordinance. Look for maintenance tracking software. Upgrade SCADA reporting software.                  |
| Did you accomplish them?  |
| o Yes   |
| • No  |
| If No, explain:   |
| We completed cleaning, televising and manhole inspection. Information on reports have been compiled into a new database. Manhole chimney seal replacements are now protocol w/in our pavement rehab program.  |
| Worked extensively this past year with a local food processor this past year to control O&G discharges that were affecting one of our lift stations. Considerable staff hours and repairs were spent at this lift station during the year. We believe that the grease was a large contributing factor to pump and control problems that were encountered. |
| We did not have a chance to complete the updates of the sewer use ordinance nor establish the FOG program.  |
| ☐ Organization [NR 210.23 (4) (b)]  |
| Does this chapter of your CMOM include: ☑ Organizational structure and positions (eg. organizational chart and position descriptions) ☑ Internal and external lines of communication responsibilities   |
| ☐ Person(s) responsible for reporting overflow events to the department and the public  |
| □ Legal Authority [NR 210.23 (4) (c)]     □ What is the legally binding document that regulates the use of your sewer system?   |

If you have a Sewer Use Ordinance or other similar document, when was it last reviewed and revised? (MM/DD/YYYY) 1991-02-20

June 18, 2018

Honorable Mayor and Common Council City of Pewaukee Waukesha County, Wisconsin

Dear Mayor and Council Members:

In planning and performing our audit of the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the City of Pewaukee as of and for the year ended December 31, 2017, in accordance with auditing standards generally accepted in the United of States of America, we considered the City's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be significant deficiencies or material weaknesses and therefore there can be no assurance that all such deficiencies have been identified. However, as discussed below, we identified certain deficiencies in internal control that we consider to be material weaknesses.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency or combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the City's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the following deficiencies in the City of Pewaukee's internal control to be material weaknesses:

- Segregation of duties
- Internal control over financial reporting
- Audit adjustments

#### **Segregation of Duties**

A fundamental element of internal control is the segregation of certain key duties. The basic idea underlying segregation of duties is that no employee or group should be in a position to both perpetrate and conceal errors or fraud in the normal course of their duties. In general, the principal incompatible duties to be segregated include:

- Custody of assets
- Authorization or approval of related transactions affecting those assets
- Recording or reporting of related transactions
- Execution of the transaction or transaction activity

Currently one individual performs substantially all accounting functions for the courts. Since overlapping duties do exist it is important for management to recognize this situation and be aware of the concentration of duties and responsibilities. We recommend that management consider reassignment of certain duties to other employees thereby removing the concentration of responsibility while strengthening the controls over reporting and the safeguarding of assets.

#### **Internal Control over Financial Reporting**

Properly designed systems of internal controls consist of enough individuals, with sufficient training and experience, to process and record monthly transactions, as well as prepare a complete set of annual financial statements. The definition of a material weakness in internal control includes consideration of the year-end financial reporting process and preparation of the annual financial statements. In order for the City to avoid this type of material weakness, the system of internal controls would need to have a process for identifying financial reporting risks and be able to:

Prepare a complete set of year-end financial statements in such a condition that the auditor is unable to identify any material changes as a result of the audit. A complete set of financial statements include the government-wide statements, the governmental and proprietary fund statements (including distinguishing between major and non-major fund reporting requirements), all conversion entries, and footnote disclosures.

This high level of internal control over financial reporting can be a difficult task for governments. As opposed to larger private companies, most governments operate with only enough staff to process monthly transactions and reports, and often rely on their auditors to prepare the year-end financial reporting.

City management may choose to outsource certain accounting functions, including preparation of the City's financial statements and related note disclosures. Management remains responsible however for these services as if they were performed by City personnel. Specifically, management is responsible for all management decisions and functions including designating an individual with suitable skill, knowledge or experience to oversee the outsourced services, for evaluating the adequacy and results of those services and accepting responsibility for them.

As part of the audit, management requested that we prepare the City's annual financial statements, including the notes to those financial statements. Auditors are precluded from being part of the City's internal control system. Management reviewed, approved and accepted responsibility for those financial statements prior to their issuance; however, management does not have the ability to evaluate the completeness of those financial statements or disclosures.

#### **Audit Adjustments**

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management.

For purposes of this letter, professional standards define an audit adjustment as a proposed correction of the financial statements that, in our judgment, may not have been detected except through our auditing procedures. An audit adjustment may or may not indicate matters that could have a significant effect on the City's financial reporting process. All audit adjustments were reviewed and approved by the City's accountant and were included in your financial statements.

Several significant audit adjustments were proposed to the City's Water and Sewer Utility books during the course of the audit primarily as it relates to the updating of the fixed assets and recording the 2017 depreciation.

We recommend that the City evaluate the current financial reporting process to determine if additional control procedures are necessary to assist in identification of financial reporting misstatements to allow timely corrective actions to be taken.

The existence of significant deficiencies or material weaknesses may represent a conscious decision by management or those charged with governance to accept the degree of risk because of cost or other considerations. We are responsible to communicate material significant deficiencies or material weaknesses in accordance with professional standards regardless of management's decisions.

#### Other Comments and Recommendations

In compliance with audit requirements we performed a number of audit procedures and inquiries including evaluating the effectiveness of those controls over various transaction cycles. Our consideration of internal control was for the limited purpose of providing a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements and not to necessarily identify all deficiencies in the City's internal control systems.

As a result of the work performed, we are able to provide to you information about where your controls over transactions either do not exist, or could be improved. Following is a list of potential controls that should be in place to achieve a higher level of reliability that errors or irregularities in your processes would be discovered by your staff. In addition, as you make changes within your organization, and we continue to rotate audit procedures, more controls of this kind will likely be communicated to you.

#### Developer donated assets

All developer donated infrastructure assets that the City took ownership of in 2017 were not recorded on the City's books until the audit. The total amount of developer donated assets which were identified during the audit totaled \$991,532.05.

## Our Responsibility under Auditing Standards Generally Accepted in the United States of America

The objective of a financial statement audit is the expression of an opinion on the financial statements. We conducted the audit in accordance with auditing standards generally accepted in the United States of America. These standards require that we plan and perform our audit to obtain reasonable, rather than absolute, assurance about whether the financial statements prepared by management with your oversight are free of material misstatement, whether caused by error or fraud.

Our audit included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit does not relieve management or the Common Council of their responsibilities.

As part of the audit we obtained an understanding of the City and its environment, including internal control, sufficient to assess the risks of material misstatement of the financial statements and to design the nature, timing and extent of further audit procedures. The audit was not designed to provide assurance on internal control or to identify deficiencies in internal control.

#### Planned Scope and Timing of the Audit

We performed the audit according to the planned scope and timing discussed with management and previously communicated to you in our letter submitted to you in December 2017.

#### **Qualitative Aspect of Accounting Policies**

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the City are described in Note 1 to the financial statements. Except for those discussed below, no new accounting policies were adopted and the application of existing policies was not changed during 2017. We noted no transactions entered into by the City during the year that were both significant and unusual, and of which, under professional standards, we are required to inform you, or transactions for which there is a lack of authoritative guidance or consensus.

#### **Accounting Estimates**

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimates affecting the financial statements are:

- Accumulated depreciation is based on managements' best estimate of the useful lives of the City's fixed assets. We evaluated key factors and assumptions used to develop the lives of the assets in determining that they are reasonable in relation to the financial statements taken as a whole.
- The valuation and timely identification of donated infrastructure assets on both the City's and Water and Sewer Utility's books.
- The allowance for uncollectible traffic citations.

#### **Management Consultations with Other Independent Accountants**

In some cases, management may decide to consult with other accountants about auditing and accounting matters. If a consultation involves application of an accounting principle to the governmental unit's financial statements or a determination of the type of auditors' opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

#### **Difficulties Encountered in Performing the Audit**

We encountered no significant difficulties in dealing with management in performing and completing our audit.

#### **Disagreements with Management**

For purposes of this letter, professional standards define a disagreement with management as a matter, whether or not resolved to our satisfaction, concerning a financial accounting, reporting, or auditing matter that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

#### Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the City's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

#### Independence

We are not aware of any relationships between Rotroff Jeanson & Company SC and the City that, in our professional judgment, may reasonably be thought to impair our independence.

Relating to our audit of the financial statements as of and for the year ended December 31, 2017, Rotroff Jeanson & Company SC hereby confirms in accordance with the Code of Professional Conduct issued by the American Institute of Certified Public Accountants, that we are, in our professional judgment, independent with respect to the City and provided no services to the City other than services provided in connection with the audit of the current year's financial statements and the following non-audit services which in our judgment do not impair our independence:

- Financial statement preparation
- Adjusting journal entries
- Compiled regulatory reports
- Tax roll and accounting assistance

#### **Management Representations**

We have requested and received certain representations from management that are included in the management representation letter.

#### Other Information in Documents Containing Audited Financial Statements

Our responsibility does not extend beyond the audited financial statements identified in this report. We do not have any obligation to and have not performed any procedures to corroborate other information contained in client prepared documents.

This letter is also intended to inform the Common Council about significant matters related to the conduct of the annual audit so that it can appropriately discharge its oversight responsibility, and that we comply with our professional responsibilities to the Common Council.

This report includes other comments and recommendations designed to improve your system of controls or operating efficiencies, and required communications to those charged with governance related to our audit. The comments and suggestions in this report are not intended to reflect in any way on the integrity or ability of the personnel of the City. We will review the status of these comments during our next audit engagement.

This communication is intended solely for the information and use of the Common Council and management and is not intended to be, and should not be, used by anyone other than these specified parties.

We appreciate the opportunity to be of service to the City of Pewaukee. Should you have any questions or concerns about any of the preceding comments and recommendations we would be pleased to discuss them with you in further detail.

Sincerely,

Rotroff Jeanson & Company, S.C.

Rottoff Deanson E, Canguil

# **Independent Auditors' Report**

Common Council City of Pewaukee Waukesha County, Wisconsin

## **Dear Council Members:**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Pewaukee, Wisconsin as of and for the year ended December 31, 2017, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

# Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

# **Auditors' Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

# **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Pewaukee, Wisconsin as of December 31, 2017, and the respective changes in financial position and, where applicable, cash flows thereof for the

year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Other Matters**

# Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 - 14 and the budgetary comparison information and the schedules of the City's proportionate share of net pension asset and employer pension contributions — Wisconsin Retirement System on pages 50 - 52 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquires, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

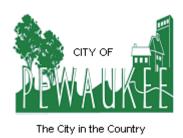

## Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Pewaukee, Wisconsin's basic financial statements. The combining and individual fund financial statements, business-type activities statements, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements, business-type activities statements, and statistical section are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements, business-type activities statements, and statistical section are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

# **December 31, 2017**

This discussion and analysis presents the highlights of financial activities and financial position for the City of Pewaukee (City) for the year ended December 31, 2017. The analysis focuses on significant financial issues, major financial activities and resulting changes in financial position, budgetary comparisons, and specific issues related to funds and the economic factors affecting the City. We encourage readers to consider the information presented here in conjunction with the City's basic financial statements, which follow this section.

# **Financial Highlights**

The assets of the City exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$141,186,267 (net position). Of this amount, \$108,085,597 relates to the net investment in capital assets. \$1,917,234 is restricted for capital projects, pension benefits and other various purposes. \$31,183,436 is considered unrestricted and available to meet the government's ongoing obligations to citizens and creditors.

During 2017, the City's net position increased by \$3,379,996 or 2.5%. The City's governmental activities increased \$3,331,887 while the business-type activities increased by \$48,109.

At December 31, 2017, the City's governmental funds reported combined ending fund balances of \$17,264,057, a decrease of \$54,431 from the previous year. The General Fund comprised \$4,863,990, or 28.2% of the combined fund balances. The Capital Equipment Fund comprised \$4,791,455, or 27.8% of the combined fund balances. The Storm Water Management Fund comprised \$4,201,550 or 24.3% of the combined fund balances. The Road Construction Fund comprised \$1,041,793, or 6% of the combined fund balances, of which \$63,630 remains from long-term borrowings and is considered restricted. The Sport Complex Capital Project Fund comprised \$608,152, or 3.5% of the combined fund balances. Additional restricted funds from various special revenue funds totaled \$729,007.

The Common Council adopted resolutions and ordinances committing \$8,169,768 for future capital projects of which \$4,201,550 is for future storm water management, \$1,511,368 for public safety capital equipment, \$1,432,392 for public works capital equipment and a new salt shed, \$681,684 for property improvements, \$246,740 for park and recreation equipment replacement and \$96,034 for other capital needs within the City.

Components of the assigned fund balance include \$978,163 for road construction, \$957,177 for future debt service expenditures, \$608,152 for construction of the sports complex, \$1,069,977 for future capital purchases, and \$17,502 for community policing events.

The General Fund balance decreased by \$867,283 in 2017 to \$4,863,990. Unassigned general fund balance was \$4,413,252 or approximately 34% of current year general fund revenues.

During 2017, the City's fixed assets, net of accumulated depreciation, increased \$754,951, from \$124,239,186 to \$124,994,137.

The City's long-term obligations, including \$474,820 of vested employee benefits, totaled \$17,838,718 at December 31, 2017. At December 31, 2016 total long-term obligations had been \$19,677,083.

## **Overview of the Financial Statements**

The City's annual financial report consists of several sections. Taken together they provide a comprehensive financial look at the City. The components of the report include the following:

# **Management's Discussion and Analysis**

This section of the report is intended to serve as an introduction to the City's basic financial statements providing an overview of financial highlights and economic factors affecting the City.

# **Financial Report Overview**

The City's basic financial statements are comprised of government-wide financial statements, fund financial statements and notes to these financial statements. They include required supplementary information related to budgetary comparisons for the general fund and major special revenue funds and the City's net pension asset and pension contributions. They also contain other supplementary information including combining and individual fund financial statements and statistical schedules.

## **Government-Wide Financial Statements**

The government-wide financial statements, found on pages 15 - 16, are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The Statement of Net Position focuses on resources available for future operations. In simple terms, this statement presents a picture of the assets the City owns, the liabilities it owes and the net difference as of December 31, 2017. The net difference is further separated into amounts restricted for specific purposes and unrestricted amounts. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The Statement of Activities focuses on gross and net costs of City activities. This statement summarizes and simplifies the user's analysis to determine the extent to which activities are self-supporting and/or subsidized by general revenues, including local tax revenues. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, net of amounts estimated to be uncollectible, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only affect cash flows in future fiscal periods (e.g., uncollected billings and earned but unused employee benefits).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government, public safety and judicial, health and sanitation, public works, culture and recreation, and economic development. Business-type activities include operations of the City's water and sewer utility.

## **Fund Financial Statements**

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds and can be found in the statements on pages 17 - 24.

# Governmental funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions.

Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Although the City of Pewaukee maintains the following twelve governmental funds, only the general, storm water management and debt service funds are "major" funds.

General

Special Revenue:

Storm water management

Impact fee

Tourism and convention

Green space facilities

Public safety grants

Expendable cemetery

**Debt Service** 

Capital Projects:

Road construction

Sports complex

Capital equipment

Permanent:

Non-expendable cemetery – Perpetual care

Fund financial statements focus separately on major governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the City's three major funds – general, storm water management and debt service. The other special revenue funds, capital project funds and the permanent fund are classified as "non-major" and are combined into a column titled "Other Governmental Funds." Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

# **Proprietary funds**

The financial statements for the City's proprietary funds follow the governmental funds and include statements of net position, revenues, expenses and changes in fund net position, and cash flows for the City's water and sewer utilities.

Proprietary funds provide the same type of information as the "business-type" activities in the government-wide statements, only in more detail. They include operations for the City's water and sewer utility.

# Fiduciary funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City of Pewaukee's own programs.

The fiduciary fund maintained by the City is used to account for assets held by the City as an agent for individuals, private organizations, or other governments but is primarily related to current year taxes levied and collected on behalf of other taxing jurisdictions. These "agency" funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

# **Notes to the Financial Statements**

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 25 - 49 of this report.

# **Required Supplementary Information**

In accordance with GASB 34, budgetary comparison statements are required to be presented for the general fund and each major special revenue fund with a legally adopted budget. The budgetary comparison statement for 2017 includes the general fund and the storm water management fund.

In accordance with GASB 82, the schedule of the City's proportionate share of the net pension asset within the Wisconsin Retirement System for the year ended December 31, 2017 and the schedule of employer pension contributions are included as required supplementary information.

Notes to required supplementary information describe the City's budgetary process, amendments to the originally approved budget and additional information related to the City's pension plan.

Required supplementary information can be found on pages 50 -52 of this report.

# **Supporting Schedules**

Readers desiring additional supplementary information can find it in the supporting schedules found on pages 53 - 74, immediately following the notes to required supplementary information. These schedules include information and data about the City's non-major funds as well as providing additional detail about the City's major funds including:

- Combining statements including balance sheets and statements of revenues, expenditures and changes in fund balances
- · Budgetary information
- Capital Assets

# **Government-Wide Financial Analysis**

#### Statement of Net Position

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City of Pewaukee, assets and deferred outflows exceeded liabilities and deferred inflows of resources by \$141,186,267 and \$137,806,271 at the close of the most recent fiscal years.

| Unrestricted                     | 16,433            | 16,913 | 12,999            | 14,270 | 29,432       | 31,183  | 1,751          | 5.9%          |
| Total net position               | \$<br>55,228      | 58,560 | 82,578            | 82,626 | 137,806      | 141,186 | 3,380          | 2.5%          |

Capital assets include infrastructure assets of the governmental activities and reflect the cost of the City's streets and roads, storm sewers, bridges, and water and sewer utility improvements. The largest portion of the City's net position (76.6%) reflects its investment in capital assets (e.g., land, buildings, machinery, equipment and infrastructure) less any related debt used to acquire those assets that is still outstanding.

The City uses these capital assets to provide services to citizens, consequently, these assets are not available for future spending. Although the City's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

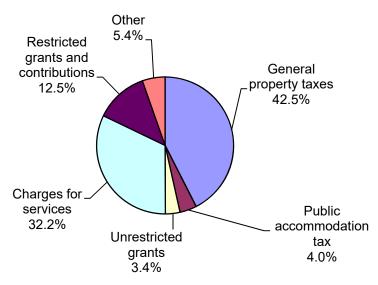

A portion of the year-end net position is restricted for specific purposes. The restrictions represent legal or contractual limitations on how the assets may be expended. These include development charges and other collections limited to the repayment of debt and amounts payable for future pension benefits. Of the amounts shown as "Restricted net assets", \$1,015,702 has been restricted for potential future pension costs.

## Statement of Activities

# Governmental Activities

The City's net position from governmental activities increased \$3,331,887 in 2017. The increase in net position is a combination of increases in restricted grants and contributions which include infrastructure assets contributed to the City by developers and reduced spending. As shown by the following graph, taxes (general property and public accommodation) totaling \$9,559,182 made up 46.5% of the total governmental revenues during the current fiscal year.

Program charges for services, which directly offset related program expenses, totaled \$6,618,610 and \$7,286,751 respectively, for the years ended December 31, 2017 and 2016 and included the following:

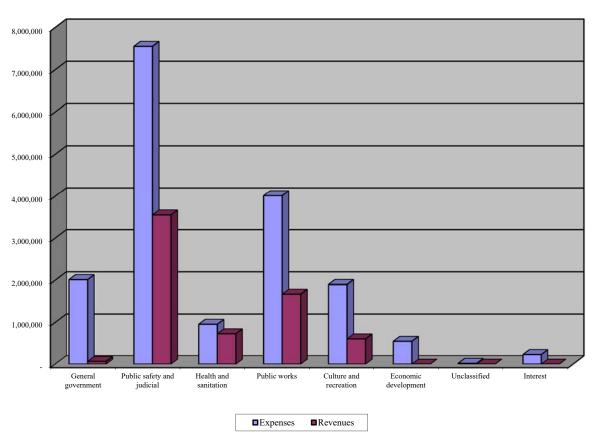

|                            | <u>     2016                               </u> | 2017      |
|----------------------------|---|-----------|
| Public safety and judicial | \$ 4,045,195                                    | 3,551,660 |
| Health and sanitation      | 748,287   | 726,582   |
| Public works               | 1,816,418                                       | 1,671,644 |
| Culture and recreation     | 607,126   | 603,875   |
| Miscellaneous              | 69,725  | 64,849    |

Restricted program grants and contributions include special assessments for road improvements charged to the benefitting property owners, developer financed improvements subsequently contributed to the City, aids received from the State of Wisconsin for public safety and highway and transportation, and from Waukesha County for recycling. The majority of unrestricted grants were shared revenues received from the State of Wisconsin.

For governmental activity expenses, 43.9% relate to public safety and judicial operations, which includes police protection, fire, paramedic and rescue protection, building inspection and municipal court operations. An additional 23.3% was spent for public works, i.e. maintenance of City streets, roads and storm water management. The City spent \$1,898,511, or 11%, towards its culture and recreation programs in 2017. 76.1% of health and sanitation program expenses were directly offset by charges for related services. Depreciation of the City governmental activity fixed assets of \$2,692,730 was allocated to the various governmental activities during 2017 based upon actual usage of the various capital assets, compared to \$2,607,605 in 2016. 69.1% of the current year depreciation was related to the City's public works operations, the majority of which related to roads, bridges and storm sewer infrastructure.

The following graph provides an illustration of the breakdown of the City's governmental activities, the related expenses, and the directly related revenues offsetting these expenses.

# Program Expenses and Revenues -Governmental Activities

# **Business-type Activities**

Business-type activities for the City are comprised of its water and sewer utilities. The utilities increased the City of Pewaukee's net position by \$48,109. The table below is a summary of the water and sewer utility operations.

# Summary of Water and Sewer operations (in thousands)

# Financial Analysis of the City's Funds

The City of Pewaukee uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$17,264,057. Approximately 25.6% of this total amount, or \$4,413,252, constitutes unassigned fund balance, which is available for spending at the government's discretion.

The assigned fund balance, \$3,630,971 indicates that the City has set these balances aside for specific future purposes. These include \$978,163 for road construction projects, \$608,152 for sports complex construction, \$1,069,977 for future capital equipment purchases, \$957,177 for debt service payments, and \$17,502 is for community policing.

Committed fund balances of \$8,169,768 represent amounts which can only be used for specific purposes pursuant to constraints imposed by formal resolutions or ordinances adopted prior to the end of the current fiscal year of the Common Council, the government's highest level of decision making authority. Those committed amounts cannot be used for any other purpose unless the Common Council removes the specified use by taking the same type of action imposing the commitment. The following funds have fund balances which have been committed:

| General fund           | \$ 246,740 |
|------------------------|------------|
| Storm water management | 4,201,550  |
| Capital equipment      | 3,721,478  |

The restricted fund balance of \$792,637 is constrained by creditors, contributors and laws or regulations of other governments, or imposed by law through constitutional provisions and enabling legislation. The following funds have fund balances which are restricted:

| Road construction –      |              |
|--------------------------|--------------|
| Unexpended debt proceeds | \$<br>63,630 |
| Impact fees              | 580,709      |
| Tourism and convention   | 77,208       |
| Cemetery – Expendable    | 71,090       |

Although the Common Council originally approved a balanced budget for the general fund in 2017, the fund balance actually decreased by \$867,283. General fund revenues and other financing sources exceeded the originally approved 2017 budget by \$74,532 and general fund expenditures were \$1,058,185 less than budgeted. These were offset by transfers from the general fund to other funds which exceeded originally budgeted amounts by \$2,000,000.

The majority of departmental expenditures were less than originally budgeted. Overall the general fund expenditures totaled \$12,815,830, \$1,058,185 or 7.6% less than budgeted. This was primarily the result of the following being under budget: General government - \$336,668, Public safety - \$331,174, Public works - \$188,357 and Culture and recreation - \$59,469.

The City's general fund transferred \$1,000,000 to both the road construction fund and the capital equipment fund in 2017; neither of which had been budgeted for.

The City also spent \$845,662, \$1,723,893 and \$1,634,045 on storm water management, capital equipment purchases and road construction projects, respectively, during 2017.

The individual fund balance increases (decreases) are as follows:

| General                   | \$<br>(867,283) |
|---------------------------|-----------------|
| Storm water management    | 512,087         |
| Debt service fund         | 156,865         |
| Impact fee                | 131,395         |
| Tourism and convention    | 27,208          |
| Green space facilities    | (16,790)        |
| Expendable cemetery       | 4,287           |
| Road construction         | (408,699)       |
| Sports complex            | (92,033)        |
| Capital equipment         | 495,620         |
| Cemetery – perpetual care | 2,912           |
|                           | \$<br>(54,431)  |

# **Capital Assets and Debt Administration**

# **Capital Assets**

As of December 31, 2017, the City had invested \$124,994,137 in capital assets, net of accumulated depreciation. During 2017 the City's gross capital assets increased \$4,780,732. This included developer donated assets of \$1,002,232 contributed to the City in the form of roads, and the sewer utility's system.

| Governmental activities | \$ 1,344,729 |
|-------------------------|--------------|
| Proprietary activities  | 516,582      |
|                         | \$ 1,861,311 |

# **Other Economic Factors**

The City of Pewaukee has consistently established a very good financial position as it relates to the fiscal ability to provide needed and desired public services to City residents and taxpayers at a relatively low expenditure of tax dollars.

In 2013, the City developed a Strategic Plan that covers the five-year period from 2014 through 2018. The Common Council and staff utilized this activity to establish future goals.

In September 2016, Moody's Investors Service reviewed, and maintained, a rating of Aa1 on the City of Pewaukee's general obligation debt. As of December 31, 2016, the City's general obligation debt burden is 11.6% of our \$150.1 million-dollar capacity to borrow.

The City continues to commit funds for the purchase of capital equipment, i.e.: fire engines, plow trucks and ambulances, in future years in order to more equally distribute the cost. The Common Council continues to plan forward in the coming years with improvements to streets, storm water management improvements, and various water and sewer projects. As outlined in the Long-Term Financial Plan, the City anticipates borrowing to maintain the infrastructure.

For the past five years, the City of Pewaukee has continued to stand apart from other communities in the area related to the increase in the number of single-family homes started in the community. In 2017, the City issued 69 new home permits.

The City of Pewaukee continues to evaluate the staffing levels and the needs of the community related to the services that are provided.

The City of Pewaukee has established agreements with surrounding agencies to maximize a high level of service which the community has come to expect, while being cost conscious. This is demonstrated by the following agreements:

- The City has contracted for police services from the Waukesha County Sheriff's Department since 2010.
- The Village of Pewaukee currently contracts with the City for Fire/EMS services and Building Inspection services.
- The Pewaukee Public Library is a joint City/Village library, in 2017 the City of Pewaukee was responsible for 75% of the shared expenses.
- The City and Village have had a Joint Park/Recreation Department since 1997 with the City of Pewaukee responsible for 67% of the expenses and revenues.

The City of Pewaukee elected officials and staff continue to work cooperatively to maintain a solid financial position, prepare for the continued development of the community, and provide a desired level of service to the citizens.

## **Financial Contact**

The City's financial statements are designed to present users (citizens, taxpayers, customers, investors, and creditors) with a general overview of the City's finances and to demonstrate the City's accountability. If you have questions about the report or need additional financial information, please contact the City at W240N3065 Pewaukee Road, Pewaukee, WI 53072.

# CITY OF PEWAUKEE RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES

Governmental Funds Year Ended December 31, 2017

| Net change in fund balances - total governmental funds  | \$<br>(54,431)  |
|---|-----------------|
| Amounts reported for governmental activities in the Statement of Activities are different because:  |                 |
| Revenues in governmental funds include those which provide financial resources of the current year but which were earned in prior years.  | 102,262         |
| Long-term special assessment which are not available to pay for current year expenditures are deferred until collected in the governmental funds. In the Statement of Activities these are reported when earned.  | 463,772         |
| Capital outlays are reported in governmental funds as expenditures. In the Statement of Activities, however, the cost of those assets is depreciated over their estimated useful lives. This is the amount by which capital purchases exceed depreciation expense.    | 1,032,246       |
| Contributed capital assets are not included as revenues in the governmental funds. In the Statement of Activities, however, they are reported at their estimated fair value at the time of acquisition.   | 991,532         |
| In governmental funds proceeds from the sale of assets are financial resources and are recognized as revenue. In the Statement of Activities, only the amount by which the sales proceeds exceed the remaining book value of the sold asset is recognized as revenue. | (208,547)       |
| Governmental funds report pension contributions as expenditures. In the Statement of Activities, however, the cost of pension benefits earned net of employee contributions is reported as pension expense  | (320,229)       |
| Accrued sick leave benefits not payable from current year resources are not reported as expenditures of the current year. In the Statement of Activities, however, these costs are current year expenses.   | (22,946)        |
| Interest on long-term debt is recognized as an expenditure in the funds when it is due. In the Statement of Activities, however, interest expense is recognized as it accrues.  | 3,499           |
| Repayment of long-term debt obligations is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position.  | 1,344,729       |

# (1) Summary of Significant Accounting Policies

The accounting and reporting policies of the City of Pewaukee included in the accompanying basic financial statements conform to accounting principles generally accepted in the United States of America applicable to state and local governments. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The following is a summary of the more significant accounting policies:

# A. Reporting Entity

This report includes all of the funds of the City of Pewaukee. The reporting entity for the City consists of the primary government, organizations for which the primary government is financially accountable and other organizations for which the nature and significance of their relationship with the primary government are such that their exclusion would cause the reporting entity's financial statements to be misleading or incomplete. Component units are legally separate organizations for which the elected officials of the primary government are financially accountable. The primary government is financially accountable if it appoints a voting majority of the organization's governing body and is able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to or burdens on the primary government. The primary government may be financially accountable if an organization is fiscally dependent on the primary government.

Based upon the application of these criteria, operations of the joint park and recreation department, described in Note 4 (C), have been blended with the City and are included in these financial statements as component units.

## B. Government-Wide and Fund Financial Statements

# **Government-Wide Financial Statements**

The statement of net position and statement of activities display information about the reporting government as a whole. They include all funds of the reporting entity except for fiduciary funds. The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. The City does not allocate indirect expenses to functions in the statement of activities. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not included among program revenues are reported instead as general revenues. Internally dedicated resources are reported as general revenues rather than as program revenues.

# **Fund Financial Statements**

The accounts of the City are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund equity, revenues and expenditures. Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

# (1) Summary of Significant Accounting Policies - Continued

## B. Government-Wide and Fund Financial Statements - continued

# **Fund Financial Statements - continued**

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual proprietary funds are reported as separate columns in the fund financial statements.

Funds are organized as major funds or non-major funds within the governmental and proprietary statements. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the City or meets the following criteria:

- a. Total assets and deferred outflows of resources, liabilities and deferred inflows of resources, revenues, or expenditures/expenses of that individual governmental or proprietary fund are at least 10 percent of the corresponding total for all funds of that category or type, and
- b. The same element of the individual governmental fund or proprietary fund that met the 10 percent test is at least 5 percent of the corresponding total for all governmental and proprietary funds combined.
- c. In addition, any other governmental or proprietary fund that the City believes is particularly important to financial statement users may be reported as a major fund.

The City reports the following major governmental funds:

General Fund – accounts for the City's primary operating activities. It is used to account for all financial resources except those required to be accounted for in another fund.

Storm Water Management Fund – a special revenue fund which accounts for resources accumulated and payments made for storm water management projects.

Debt Service Fund – accounts for resources accumulated and payments made for principal and interest on long-term debt other than proprietary fund debt.

The City reports the following major proprietary funds:

Water Utility – accounts for the operations of the water system.

Sewer Utility – accounts for the operations of the sanitary sewer system.

The City reports the following non-major governmental funds:

Special Revenue Funds – used to account for the proceeds of specific revenue sources (other than major capital projects) that are legally restricted to expenditures for specific purposes and includes:

Impact Fee Fund
Tourism and Convention Fund
Green Space Facilities Fund
Public Safety Grants Fund
Expendable Cemetery Fund

# (1) Summary of Significant Accounting Policies - Continued

# B. Government-Wide and Fund Financial Statements - continued

# **Fund Financial Statements - continued**

Capital Projects Funds – used to account for financial resources to be used for the acquisition or construction of equipment and/or major capital facilities and includes:

Road Construction Fund Sports Complex Fund Capital Equipment Fund

Permanent Fund - used to report resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the reporting government's programs, that is, for the benefit of the government or its citizenry and includes:

Non-Expendable Cemetery Fund

In addition, the City reports the following fund type:

Agency Fund - used to account for assets held by the City in a trustee capacity or as an agent for individuals, private organizations, and/or other governmental units.

# C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

# **Government-Wide Financial Statements**

The government-wide statement of net position and statement of activities are reported using the economic resources measurement focus and the accrual basis of accounting. Accordingly, all the City's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, including capital assets and long-term liabilities, are included in the accompanying Statement of Net Position.

Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets, and liabilities from exchange and exchange-like transactions are recognized when the exchange takes place. Property taxes are recognized as revenues in the year for which they are levied. Taxes receivable for the following year are recorded as receivables and deferred inflows of resources. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider are met. Special assessments are recorded as revenue when earned. Unbilled receivables are recorded as revenues when services are provided.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the City's water and sewer utilities and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

## **Fund Financial Statements**

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recorded when they are both measurable and available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within sixty days of the end of the current fiscal period. Expenditures are recorded when the related fund liability is incurred, except for unmatured interest on long-term debt, claims, judgments, termination benefits, and compensated absences, which are recorded as a fund liability when expected to be paid with expendable available financial resources.

# (1) Summary of Significant Accounting Policies - Continued

# C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation - continued

# **Fund Financial Statements - continued**

Property taxes are recorded in the year levied as receivables and deferred inflows of resources and are recognized as revenues in the succeeding year when services financed by the levy are being provided. Intergovernmental aids and grants are recognized as revenues in the period the City is entitled to the resources and the amounts are available. Amounts owed to the City but not available are recorded as receivables and deferred inflows of resources. Amounts received prior to the entitlement period are recorded as current liabilities.

Special assessments are recorded as revenues when they become measurable and available as current assets. Annual installments due in future years are reflected as receivables and deferred inflows of resources.

Revenues susceptible to accrual include property taxes, miscellaneous taxes, charges for services, special assessments and interest. Other general revenues such as fines and forfeitures, inspection fees, recreation fees, and miscellaneous revenues are recognized when received in cash or when measurable and available under the criteria described above.

Proprietary and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as described previously in this note.

The proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the water and sewer utilities are charges to customers for sales and services. Operating expenses for proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

# D. Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position or Equity

# 1. Deposits and Investments

For purposes of the statement of cash flows, the City considers all highly liquid investments with an initial maturity of three months or less when acquired to be cash equivalents.

Wisconsin municipalities are authorized by statute to invest idle funds in the following institutions and investments:

- a. Time deposits in any credit union, bank, savings bank, trust company or savings and loan association, which is authorized to transact business in the state if the time deposits mature in not more than 3 years.
- b. Bonds or securities issued or guaranteed as to principal and interest by the federal government or by a commission, board or other instrumentality of the federal government.
- Bonds or securities of any county, city, village, town, drainage district, technical college district, or school district of this state.
- d. Bonds issued by a local exposition district, local professional baseball park district, local professional football stadium district or local cultural arts district.

# (1) Summary of Significant Accounting Policies - Continued

# D. Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position or Equity – continued

# 1. Deposits and Investments - continued

- e. Bonds issued by the University of Wisconsin Hospitals and Clinics Authority or the Wisconsin Aerospace Authority.
- f. Any security which matures or which may be tendered for purchase at the option of the holder within not more than 7 years of the date on which it is acquired, if that security has a rating which is the highest or 2nd highest rating category assigned by Standard & Poor's corporation, Moody's investors service or other similar nationally recognized rating agency or if that security is senior to, or on a parity with, a security of the same issuer which has such a rating.
- g. Securities of an open-end management investment company or investment trust (mutual fund), if the portfolio is limited to the following:
  - 1. Bonds and securities issued by the federal government or a commission, board or other instrumentality of the federal government.
  - 2. Bonds that are guaranteed as to principal and interest by the federal government or a commission, board or other instrumentality of the federal government.
  - 3. Repurchase agreements fully collateralized by bonds or securities under (g) 1 or 2.
- h. Bonds or securities issued under the authority of the municipality, whether the bonds or securities create a general municipality liability or a liability of the property owners of the municipality for special improvements and may sell or hypothecate the bonds or securities.
- i. The Local Government Pooled Investment Fund.
- j. Repurchase agreements with public depositories, if federal bonds or securities secure the agreement.

Investments made during 2017 were held in the City's name and were in accordance with those allowable by state statutes.

The Wisconsin Local Government Investment Pool (LGIP) is part of the State Investment Fund (SIF), and is managed by the State of Wisconsin Investment Board. The SIF is unrated and is not registered with the Securities and Exchange Commission but operates under the statutory authority of Wisconsin Chapter 25. The SIF reports the fair value of its underlying assets annually. Participants in the LGIP have the right to withdraw their funds in total on one day's notice. At December 31, 2017, the fair value of the City's share of the LGIP's assets was substantially equal to the amount as reported in these statements.

# 2. Receivables

Property taxes are levied in December on the assessed value as of the prior January 1. In addition to property taxes for the City, taxes are collected for and remitted to the state and county governments as well as local school districts and the technical college district. Taxes for all state and local governmental units billed in the current year for the succeeding year are reflected as receivables and due to other taxing units on the accompanying agency fund balance sheet.

# (1) Summary of Significant Accounting Policies - Continued

# D. Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position or Equity – continued

## 2. Receivables - continued

Property tax calendar – 2017 tax roll:

Levy:

Tax lien and levy date December 2017
Tax bills mailed December 2017

Due dates:

Real property taxes:

Payment in full or first installment January 31, 2018 Second installment payable to County July 31, 2018

Personal property taxes, special assessments

and special charges, in full January 31, 2018

Tax settlements with taxing jurisdictions:

First settlement January 15, 2018
Second settlement February 20, 2018
Final settlement August 20, 2018
Tax sale - 2017 delinquent real estate taxes October 2020

Real estate taxes delinquent as of January 31 are assumed by Waukesha County. The City maintains responsibility for collection of delinquent personal property taxes. Accounts receivable have been shown net of an allowance for uncollectible accounts. No provision for uncollectible accounts receivable has been made for the water and sewer utilities because they have the right by law to place delinquent bills on the tax roll.

During the course of operations, transactions occur between individual funds that may result in amounts owed between funds. Short-term interfund loans are reported as "due to" and "due from" other funds. Interfund receivables and payables between funds within governmental activities are eliminated in the statement of net position. Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances".

# 3. Inventories and Prepaid Items

Governmental fund inventories are valued at cost on a first in, first out basis. Inventory in the general fund consists of expendable supplies held for consumption. Costs are recorded as expenditures at the time individual inventory items are consumed. Reported inventories are offset as nonspendable fund balance, which indicates that they do not constitute "available spendable resources" even though they are a component of fund balance. Proprietary fund inventories are generally used for construction and for operation and maintenance work. They are not for resale. They are valued at cost based on weighted average and charged to operation and maintenance expense when used.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

## 4. Restricted Assets

Mandatory segregations of assets are presented as restricted assets. Such segregations are required by bond agreements and other external parties. Current liabilities payable from these restricted assets are so classified. The excess of restricted assets over current liabilities payable from restricted assets will be used first for retirement of related long-term debt. The remainder, if generated from earnings, is shown as restricted net assets.

# (1) Summary of Significant Accounting Policies - Continued

# D. Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position or Equity – continued

# 5. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position or fund balance that applies to a future period(s) and thus, will not be recognized as an outflow of resources (expenditure) until then.

In addition to liabilities, the statement of financial position will sometimes report a separate section of deferred inflows of resources. This separate financial statement element represents an acquisition of net position or fund balance that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

For purposes of measuring the net pension liability, deferred outflows and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Wisconsin Retirement System (WRS) and additions to/deductions from WRS' fiduciary net position have been determined on the same basis as they are reported by WRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

# 6. Capital Assets

# **Government - Wide Statements**

In the government-wide financial statements, fixed assets are accounted for as capital assets. Capital assets are defined by the government as assets with an initial cost of more than \$5,000 and an estimated useful life in excess of one year. All capital assets are valued at historical cost or estimated historical cost if actual amounts are unavailable. Donated fixed assets are recorded at their estimated acquisition value at the date of donation.

Acquisition value is the price that would be paid to acquire an asset with equivalent service potential in an orderly market transaction at the acquisition date, or the amount at which a liability could be liquidated with the counterparty at the acquisition date.

Governmental units are required to account for all capital assets, including infrastructure, in the government-wide statements prospectively from the date of implementation of GASB 34. Retroactive reporting of all major general infrastructure assets, although encouraged, was not required until January 1, 2007, when GASB 34 required the City to retroactively report all major general infrastructure assets acquired since January 1, 1980.

Additions to and replacements of capital assets of business-type activities are recorded at original cost, which includes material, labor, overhead, and an allowance for the cost of funds used during construction when significant. Interest costs on restricted tax-exempt borrowings, less any interest earned on temporary investment of the proceeds of those borrowings during the construction period, have been capitalized as part of the cost of the related assets. No interest was capitalized during the current year. The cost of property replaced, retired or otherwise disposed of, is deducted from plant accounts and, generally, together with removal costs less salvage, is charged to accumulated depreciation.

# (1) Summary of Significant Accounting Policies - Continued

# D. Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position or Equity – continued

# 6. Capital Assets - continued

## Government - Wide Statements - continued

Depreciation of all exhaustible capital assets is recorded as an allocated expense in the statement of activities, with accumulated depreciation reflected in the statement of net position. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

| Buildings and improvements | 15-40 Years |
|----------------------------|-------------|
| Land improvements          | 10-40 Years |
| Machinery and equipment    | 2-20 Years  |
| Water and sewer plant      | 4-100 Years |
| Infrastructure             | 20-60 Years |

## **Fund Financial Statements**

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Capital assets used in proprietary fund operations are accounted for the same way as in the government-wide statements.

## 7. Compensated Absences

Compensated absences represent liabilities arising from the City's sick and vacation leave policies. The sick leave policy allows employees (excluding firefighters) to accrue sick leave at a rate of one day per month to a maximum of 130 days. Represented firefighters are allowed to accrue up to 135 hours per year to a maximum of 1,920 hours. The maximum accumulation for full-time employees hired after January 1, 2016 is 1,456 hours. If such days are not taken as paid time off during the course of employment, payment may be received upon termination at a rate of 50% of total accrued benefits. A liability is recorded only to the extent that it is estimated to result in termination payments.

The City's vacation leave policy allows employees hired before 2015 to accrue vacation benefits beginning in the year of hire. Vacation leave accrues to a maximum of five weeks based upon each employee's length of service. Vacation leave can only be accrued to a maximum of 150% of the earned benefit based upon the employee's seniority at any point during the year. Represented firefighters are not allowed to carryover any days to the next year. For employees hired after January 1, 2015 vacation leave can only be accrued to a maximum of 100% of the earned benefit based upon the employee's seniority at any point during the year.

All vested vacation and sick leave pay is accrued when earned in the full-accrual government-wide and proprietary fund financial statements. The vacation pay liability is reported in governmental fund financial statements however, vested sick pay is accrued only to the extent that it is expected to utilize current financial resources.

# 8. Long-Term Obligations

All long-term obligations to be repaid from governmental and business-type resources are reported as liabilities in the government-wide statements. The long-term obligations consist primarily of notes and bonds payable and accrued compensated absences.

# (1) Summary of Significant Accounting Policies - Continued

# D. Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position or Equity – continued

# 8. Long-Term Obligations - continued

Long-term obligations for governmental funds are not reported as liabilities in the fund financial statements. The face value of debts is reported as other financing sources and payments of principal and interest are reported as expenditures. The accounting in proprietary funds is the same as it is in the government-wide statements.

# 9. Claims and Judgments

Claims and judgments are recorded as liabilities if all the conditions of Governmental Accounting Standards Board pronouncements are met. Claims and judgments that would normally be liquidated with expendable available financial resources are recorded during the year as expenditures in the governmental funds. If they are not to be liquidated with expendable available financial resources, no liability is recognized in the governmental fund statements. The related expenditure is recognized when the liability is liquidated. Claims and judgments are recorded in the government-wide statements and proprietary funds as expenses when the related liabilities are incurred. There were no significant claims or judgments at year end.

# 10. Equity Classifications

## **Government-Wide Statements**

Equity is classified as net position and displayed in three components:

- a.Net investment in capital assets Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- b.Restricted Consists of net position with constraints placed on their use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments or, (2) law through constitutional provisions or enabling legislation.
- c. Unrestricted All other net positions that do not meet the definition of "net investment in capital assets" or "restricted".

# **Fund Statements**

Governmental fund equity is classified as fund balance. In accordance with Governmental Standards Board Statement No. 54 fund balance is further categorized into five classifications based on the constraints imposed on the use of these resources. These five classifications are nonspendable, restricted, committed, assigned and unassigned.

Nonspendable fund balance includes amounts that cannot be spent because they are either not in spendable form – prepaids or inventories; or are legally or contractually required to be maintained intact. The spendable portion of the fund balance comprises the remaining four classifications: restricted, committed, assigned, and unassigned.

 Restricted - This classification reflects the constraints imposed on resources externally by creditors, grantors, contributors, or laws or regulations of other governments; or imposed by law through constitutional provisions or enabling legislation.

#### (1) Summary of Significant Accounting Policies - Continued

### D. Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position or Equity – continued

#### 10. Equity Classifications - continued

#### **Fund Statements - continued**

- b. Committed These amounts can only be used for specific purposes pursuant to constraints imposed by formal resolutions or ordinances of the Common Council, the government's highest level of decision making authority. Those committed amounts cannot be used for any other purpose unless the Common Council removes the specified use by taking the same type of action imposing the commitment. This classification also includes contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.
- c. Assigned This classification reflects the amounts constrained by the City's intent to be used for a specific purpose but are neither restricted nor committed. The Common Council has the authority to assign amounts to be used for specific purposes. Assigned fund balances include all remaining amounts (except negative balances) that are reported in governmental funds, other than the General Fund, that are not classified as nonspendable and are neither restricted nor committed.
- d. Unassigned This fund balance is the residual classification for the General Fund. It is also used to report negative fund balances in other governmental funds.

The City has not adopted a fund balance spend-down policy regarding the order in which fund balance will be utilized. In these circumstances GASB Statement No. 54 indicates that restricted funds are to be spent first, followed by committed funds, and then assigned funds. Unassigned funds would be spent last.

#### 11. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

#### (2) Stewardship, Compliance, and Accountability

#### A. Limitations of the City's Tax Levy

Wisconsin Statute 66.0602 limits the City's property tax levy, with exceptions, to its prior tax levy, increased by the percentage change in the City's equalized value due to new construction. Changes in debt service from one year to the next are generally exempt from this limit.

#### (3) Detailed Notes on All Funds

#### A. Deposits and Investments

The City's deposits and investments at December 31, 2017 were comprised of the following:

|                                       |      |            | E | Bank and   |                                 |
|---------------------------------------|------|------------|---|------------|---------------------------------|
|                                       |      | Carrying   | I | nvestment  |                                 |
|                                       |      | Value      | _ | Balances   | Associated Risks                |
| Deposits \$                           | \$ ; | 37,091,231 | 3 | 32,687,109 | Custodial credit risk           |
| Negotiable certificates of deposit    |      | 5,006,706  |   | 5,006,706  | Custodial credit risk           |
| Investments:                          |      |            |   |            |                                 |
| Federal Home Loan Bank                |      | 2,956,531  |   | 2,956,531  | Credit risk, interest rate risk |
| Federal Farm Credit Bank              |      | 1,907,098  |   | 1,907,098  | Credit risk, interest rate risk |
| Federal National Mortgage Association | n    | 1,252,269  |   | 1,252,269  | Credit risk, interest rate risk |
| Municipal Bonds                       |      | 421,185    |   | 421,185    | Credit risk, interest rate risk |
| LGIP                                  |      | 6,269,289  |   | 6,269,289  | Credit risk, interest rate risk |
| Petty cash                            |      | 823        |   | 823        |                                 |
| •                                     | \$   | 54,905,132 | Į | 50,501,010 |                                 |

The difference between the carrying value of deposits and bank balances is due to deposits in transit and outstanding checks. Reconciliation of carrying value of deposits and investments to the statement of net position and statement of fiduciary net position is as follows:

| Per Statement of Net Position:                 |                   |
|--|-------------------|
| Cash and cash equivalents:                     |                   |
| Unrestricted \$ 24,603                         | 3,452             |
| Restricted 74                                  | 1,890             |
| Investments                                    |                   |
| Current 2,526                                  | 3,319             |
| Non-current 9,017                              | <sup>7</sup> ,470 |
| Per Statement of Fiduciary Net Position 18,683 | 3,001             |
| \$ 54,905                                      | 5,132             |

All time and savings deposits owned by the City and held by the City's official custodian in an insured depository institution within the State of Wisconsin are combined and insured up to \$250,000. All demand deposits owned by the City and held by the City's official custodian in an insured depository institution within the State of Wisconsin are combined and insured up to \$250,000.

For the purpose of these rules, the term 'time and savings deposits' includes NOW accounts, money market deposit accounts and certificates of deposit. The term 'demand deposits' means both interest-bearing and noninterest-bearing deposits that are payable on demand and for which the depository institution does not reserve the right to require advance notice of an intended withdrawal. For accounts held by the City located outside the State of Wisconsin, all time, savings, and demand deposits are combined within each depository institution and insured up to \$250,000.

In addition to FDIC insurance, there is insurance currently available through the State of Wisconsin depository insurance program, which would provide a maximum of \$400,000 of insurance on deposits in any one institution. The amount available to fund the entire Wisconsin program is limited and, therefore, the actual benefits available at a time of claim would depend upon the remaining balance in the state fund. This coverage has not been considered in computing the custodial credit risk.

#### (3) Detailed Notes on All Funds - Continued

#### A. Deposits and Investments - continued

The fair value of negotiable certificates of deposits and investments grouped by maturity at December 31, 2017 is:

| <u>Maturity</u>     |                  |
|---------------------|------------------|
| Current to one year | \$<br>2,526,319  |
| One to two years    | 4,001,141        |
| Two to three years  | 2,853,562        |
| Three to four years | 2,125,916        |
| Four to five years  | 36,851           |
| -                   | \$<br>11,543,789 |

#### Custodial Credit Risk

Custodial credit risk is the risk that in the event of a financial institution failure, the City's deposits may not be returned to it. Of the City's total bank balance, \$31,473,683 was collateralized by securities held by the pledging financial institution in excess of federal depository insurance limits. The remaining balance of \$145,667 was exposed to custodial credit risk as uninsured and uncollateralized.

Fluctuating cash flows during January and December, due to tax collections, result in temporary cash and investment balances, which significantly exceed insured amounts, until settlement with the respective taxing jurisdictions during the following month.

The City's deposit and investment policy requires that any deposits in excess of \$500,000 in any single public depository be properly collateralized or specifically approved by the City Council. This policy does not include funds established for tax collections or other accounts requiring segregation as specified by approved agreements.

#### Credit and Interest Rate Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value has to changes in market interest rates.

At December 31, 2017 the City's investments include United States Government securities and local municipal bonds totaling \$6,537,083. The City also held investments with a fair value of \$6,269,289 in the LGIP. The average maturity date for investments held by the LGIP is 35 days. The State Investment Fund, which the LGIP is a part of, had 90% of its investments in U.S. government securities at December 31, 2017.

#### B. Receivables

Governmental fund financial statements report deferred inflows of resources in connection with receivables not considered available to liquidate liabilities of the current period. Property taxes levied for the subsequent year are not earned and cannot be used to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned.

#### (3) Detailed Notes on All Funds - Continued

#### B. Receivables - continued

At the end of the current fiscal year, the various components of the City's receivables included as deferred inflows of resources reported in the governmental fund financial statements are as follows:

|   | <u>Unearned</u>     | <u>Unavailable</u> | Total            |
|---|---------------------|--------------------|------------------|
| Current year property taxes receivable: |                     |                    |                  |
| General fund                            | \$ 3,870,636        | -                  | 3,870,636        |
| Storm water management fund             | 277,072             | -                  | 277,072          |
| Debt service fund                       | 597,777             | -                  | 597,777          |
| Road construction fund                  | 143,990             | -                  | 143,990          |
| Capital equipment fund                  | 325,069             | -                  | 325,069          |
| Expendable cemetery fund                | 17,453              | -                  | 17,453           |
| Special assessments not yet due         |                     | 849,606            | 849,606          |
|   | \$ <u>5,231,997</u> | <u>849,606</u>     | <u>6,081,603</u> |

In addition, other receivables are reported in the government-wide financial statements net of amounts estimated to be uncollectible of \$358,060.

#### C. Capital Assets

Capital asset activity in the governmental activities for the year ended December 31, 2017 was as follows:

|                                      | Balance               |                    |                  | Balance               |
|--------------------------------------|-----------------------|--------------------|------------------|-----------------------|
|                                      | 12/31/16              | Additions          | <u>Disposals</u> | 12/31/17              |
| Capital Assets Not Being Depreciated |                       |                    |                  |                       |
| Land                                 | \$ 3,936,474          | -                  | 200,000          | 3,736,474             |
| Construction in progress             | 2,866,750             | 95,472             | 172,081          | 2,790,141             |
|                                      | 6,803,224             | 95,472             | 372,081          | 6,526,615             |
| Capital Assets Being Depreciated:    |                       |                    |                  |                       |
| Buildings and improvements           | 11,491,735            | 1,463,676          | -                | 12,955,411            |
| Land improvements                    | 1,743,047             | 18,200             | -                | 1,761,247             |
| Equipment                            | 9,276,679             | 616,043            | 314,875          | 9,577,847             |
| Infrastructure                       | 46,970,946            | 2,776,270          | 829,597          | <u>48,917,619</u>     |
|                                      | 69,482,407            | <u>4,874,189</u>   | <u>1,144,472</u> | 73,212,124            |
|                                      | 76,285,631            | <u>4,969,661</u>   | <u>1,516,553</u> | 79,738,739            |
| Less Accumulated Depreciation:       |                       |                    |                  |                       |
| Buildings and improvements           | (4,334,296)           | (339,532)          | -                | (4,673,828)           |
| Land improvements                    | (952,122)             | (79,338)           | -                | (1,031,460)           |
| Equipment                            | (4,050,798)           | (716,676)          | (225, 256)       | (4,542,218)           |

| Accrued interest               |     |              |                   |                | 64,173              |
| Total per government-wide stat | eme | ent of net p | osition           |                | \$ <u>2,152,585</u> |

#### E. Interfund Receivables/Payables and Transfers

The balance of interfund receivables/payables resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made. For the statement of net position, interfund balances which are owed within the governmental activities or business-type activities are netted and eliminated.

#### (3) Detailed Notes on All Funds - Continued

#### E. Interfund Receivables/Payables and Transfers - continued

Transfers between funds included one between the water utility and the general fund for payment of the property tax equivalent. Transfers from the general fund were made to the road construction and capital equipment fund to finance various capital expenditures. A transfer was made to the debt service fund from the storm water management fund to reimburse the fund for principal and interest payments made on long-term debt used to purchase equipment used by the storm water management fund. The green space facilities fund transferred the remaining fund balance to the general fund. The following is a schedule of interfund transfers:

| Fund Transferred To               | Fund Transferred From         |    | <u>Amount</u> |
|-----------------------------------|-------------------------------|----|---------------|
| General fund                      | Business-type activities -    |    |               |
|                                   | Water utility                 | \$ | 557,342       |
| General fund                      | Green space facilities        |    | 16,790        |
| Storm Water Management fund       | General fund                  |    | 17,412        |
| Storm Water Management fund       | Non-major governmental fund - |    |               |
|                                   | Expendable Cemetery fund      |    | 420           |
| Debt Service fund                 | Storm Water Management fund   |    | 260,337       |
| Non-major governmental fund -     |                               |    |               |
| Road Construction fund            | General fund                  |    | 1,000,000     |
| Capital Equipment fund            | General fund                  | _  | 1,000,000     |
| Total per fund statements         |                               | :  | 2,852,301     |
| Interfund eliminations            |                               | (2 | 2,294,959)    |
| Total per statement of activities |                               | \$ | 557,342       |

#### F. Long-Term Obligations

Long-term obligations activity for the year ended December 31, 2017 was as follows:

|  | Delegan              |           |                  | Dalamas          | Amounts          |
|--|----------------------|-----------|------------------|------------------|------------------|
|  | Balance              | Ingrasas  | D                | Balance          | Due Within       |

| Bonds and notes payable: General obligation debt   | \$ 10,691,049        | -         | 1,344,729        | 9,346,320        | 1,425,995        |
| Other liabilities:<br>Vested compensated           |                      |           |                  |                  |                  |
| absences<br>Total governmental                     | 451,874              | 22,946    |                  | 474,820          |                  |
| long-term liabilities                              | \$ <u>11,142,923</u> | 22,946    | <u>1,344,729</u> | 9,821,140        | <u>1,425,995</u> |
| Business-type Activities: Bonds and notes payable: |                      |           |                  |                  |                  |
| General obligation debt Total business-type        | \$ <u>8,534,160</u>  |           | 516,582          | <u>8,017,578</u> | <u>475,807</u>   |
| long-term liabilities                              | \$ <u>8,534,160</u>  |           | <u>516,582</u>   | <u>8,017,578</u> | <u>475,807</u>   |

All general obligation notes and bonds payable are backed by the full faith and credit of the City. Notes and bonds in the governmental funds will be retired by future property tax levies and special assessment collections. Business-type activities debt is payable by revenues from user fees of those funds.

In accordance with Wisconsin Statutes, total general obligation indebtedness of the City may not exceed 5% of the equalized value of taxable property within the City of \$3,001,079,100. The debt limit as of December 31, 2017, was \$150,053,955. Total general obligation debt outstanding at year-end was \$17,363,898.

#### (4) Other Information

#### A. Defined Benefit Pension Plan

**Plan description**. The WRS is a cost-sharing multiple-employer defined benefit pension plan. WRS benefits and other plan provisions are established by Chapter 40 of the Wisconsin Statutes. Benefit terms may only be modified by the legislature. The retirement system is administered by the Wisconsin Department of Employee Trust Funds (ETF). The system provides coverage to all eligible State of Wisconsin, local government and other public employees.

All employees, initially employed by a participating WRS employer on or after July 1, 2011 and expected to work at least 1200 hours a year (880 hours for teachers and school district educational support employees) and expected to be employed for at least one year from employee's date of hire are eligible to participate in the WRS.

ETF issues a standalone Comprehensive Annual Financial Report (CAFR), which can be found at http://etf.wi.gov/publications/cafr.htm.

**Vesting.** For employees beginning participation on or after January 1, 1990, and no longer actively employed on or after April 24, 1998, creditable service in each of five years is required for eligibility for a retirement annuity. Participants employed prior to 1990 and on or after April 24, 1998, and prior to July 1, 2011, are immediately vested. Participants who initially became WRS eligible on or after July 1, 2011, must have five years of creditable service to be vested.

**Benefits provided.** Employees who retire at or after age 65 (54 for protective occupation employees, 62 for elected officials and State executive participants) are entitled to receive an unreduced retirement benefit. The factors influencing the benefit are: (1) final average earnings, (2) years of creditable service, and (3) a formula factor.

Final average earnings is the average of the participant's three highest years' earnings. Creditable service is the creditable current and prior service expressed in years or decimal equivalents of partial years for which a participant receives earnings and makes contributions as required. The formula factor is a standard percentage based on employment category.

Employees may retire at age 55 (50 for protective occupation employees) and receive reduced benefits. Employees terminating covered employment before becoming eligible for a retirement benefit may withdraw their contributions and forfeit all rights to any subsequent benefits.

The WRS also provides death and disability benefits for employees.

**Post-Retirement Adjustments.** The Employee Trust Funds Board may periodically adjust annuity payments from the retirement system based on annual investment performance in accordance with s. 40.27, Wis. Stat. An increase (or decrease) in annuity payments may result when investment gains (losses), together with other actuarial experience factors, create a surplus (shortfall) in the reserves, as determined by the system's consulting actuary. Annuity increases are not based on cost of living or other similar factors. For Core annuities, decreases may be applied only to previously granted increases.

#### (4) Other Information - Continued

#### A. Defined Benefit Pension Plan - continued

By law, Core annuities cannot be reduced to an amount below the original, guaranteed amount (the "floor") set at retirement. The Core and Variable annuity adjustments granted during recent years are as follows:

|             | Core Fund         | Variable Fund     |
|-------------|-------------------|-------------------|
| <u>Year</u> | <u>Adjustment</u> | <u>Adjustment</u> |
| 2007        | 3.0%              | 10%               |
| 2008        | 6.6               | 0                 |
| 2009        | (2.1)             | (42)              |
| 2010        | (1.3)             | 22                |
| 2011        | (1.2)             | 11                |
| 2012        | (7.0)             | (7)               |
| 2013        | (9.6)             | 9                 |
| 2014        | 4.7               | 25                |
| 2015        | 2.9               | 2                 |
| 2016        | 0.5               | (5)               |
|             |                   |                   |

**Contributions.** Required contributions are determined by an annual actuarial valuation in accordance with Chapter 40 of the Wisconsin Statutes. The employee required contribution is one-half of the actuarially determined contribution rate for general category employees, including teachers, and Executives and Elected Officials. Starting on January 1, 2016, the Executives and Elected Officials category was merged into the General Employee Category. Required contributions for protective employees are the same rate as general employees. Employers are required to contribute the remainder of the actuarially determined contribution rate. The employer may not pay the employee required contribution unless provided for by an existing collective bargaining agreement. During the reporting period, the WRS recognized \$367,821 in contributions from the employer.

Contribution rates as of December 31, 2017 are:

| Employee Category                  | <b>Employee</b> | <b>Employer</b> |
|------------------------------------|-----------------|-----------------|
| General (including teachers,       |                 |                 |
| executives and elected officials)  | 6.8%            | 6.8%            |
| Protective with Social Security    | 6.8%            | 10.6%           |
| Protective without Social Security | 6.8%            | 14.9%           |

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At December 31, 2017, the City of Pewaukee reported a liability of \$310,884 for its proportionate share of the net pension liability. The net pension liability was measured as of December 31, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2015 rolled forward to December 31, 2016. No material changes in assumptions or benefit terms occurred between the actuarial valuation date and the measurement date. The City of Pewaukee's proportion of the net pension liability was based on the City of Pewaukee's share of contributions to the pension plan relative to the contributions of all participating employers. At December 31, 2016, the City of Pewaukee's proportion was .03771766%, which was an increase of .0008655% from its proportion measured as of December 31, 2015.

For the year ended December 31, 2017 the City of Pewaukee recognized pension expense of \$791,783.

#### A. Defined Benefit Pension Plan - continued

At December 31, 2017, the City of Pewaukee reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

|   | Deferred<br>Outflows of<br>Resources | Deferred<br>Inflows of<br>Resources |
|---|--------------------------------------|-------------------------------------|
| Differences between expected and          |                                      |                                     |
| actual experience                         | \$ 118,540                           | (977,702)                           |
| Net differences between projected and act | ual                                  |                                     |
| earnings on pension plan investments      | 1,547,479                            | -                                   |
| Changes in assumptions                    | 325,041                              | -                                   |
| Changes in proportion and differences     |                                      |                                     |
| between employer contributions and        |                                      |                                     |
| proportionate share of contributions      | 100                                  | (25,551)                            |
| Employer contributions subsequent to the  |                                      |                                     |
| measurement date                          | 429,011                              | -                                   |
| Total                                     | \$ <u>2,420,171</u>                  | (1,003,253)                         |

Deferred outflows of resources of 429,011 related to pension resulting from the City of Pewaukee's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability the year ended December 31, 2018.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

| Year ended   | Deferred Outflow | Deferred Inflows |
|--------------|------------------|------------------|
| December 31: | of Resources     | of Resources     |
| 2018         | \$ 724,432       | (320,343)        |
| 2019         | 724,431          | (320,343)        |
| 2020         | 593,429          | (317,524)        |
| 2021         | (51,674)         | (44,871)         |
| 2022         | 542              | (172)            |

Actuarial assumptions. The total pension liability in the December 31, 2016, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

| Actuarial Valuation Date                          | December 31, 2015              |
|---|--------------------------------|
| Measurement Date of Net Pension Liability (Asset) | December 31, 2016              |
| Actuarial Cost Method                             | Entry Age                      |
| Asset Valuation Method                            | Fair Market Value              |
| Long-Term Expected Rate of Return                 | 7.2%                           |
| Discount Rate                                     | 7.2%                           |
| Salary Increases:                                 |                                |
| Inflation   | 3.2%                           |
| Seniority/Merit                                   | 0.2% - 5.6%                    |
| Mortality   | Wisconsin 2012 Mortality Table |
| Post-retirement Adjustments*                      | 2.1%                           |

<sup>\*</sup> No post-retirement adjustment is guaranteed. Actual adjustments are based on recognized investment return, actuarial experience and other factors. 2.1% is the assumed annual adjustment based on the investment return assumption and the post-retirement discount rate. Page 56 of 87

#### (4) Other Information - Continued

#### A. Defined Benefit Pension Plan - continued

Actuarial assumptions are based upon an experience study conducted in 2015 using experience from 2012 - 2014. The total pension liability for December 31, 2016 is based upon a roll-forward of the liability calculated from the December 31, 2015 actuarial valuation.

Long-term expected Return on Plan Assets. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Allocation Targets and Expected Returns As of December 31, 2016

|                            |              |              | Long-Term    | Long-Term   |
|----------------------------|--------------|--------------|--------------|-------------|
|                            |              | Destination  | Expected     | Expected    |
|                            | Asset        | Target Asset | Nominal Rate | Real Rate   |
| Core Fund Asset Class      | Allocation % | Allocation % | of Return %  | of Return % |

|                            |              |              |              |             |

New England Pension Consultants Long Term US CPI (Inflation) Forecast: 2.75%. Asset allocations are managed within established ranges, target percentages may differ from actual monthly allocations.

Single Discount rate. A single discount rate of 7.20% was used to measure the total pension liability. This single discount rate was based on the expected rate of return on pension plan investments of 7.20% and a long-term bond rate of 3.78%. Because of the unique structure of WRS, the 7.20% expected rate of return implies that a dividend of approximately 2.1% will always be paid. For purposes of the single discount rate, it was assumed that the dividend would always be paid. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate.

Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments (including expected dividends) of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

#### (4) Other Information - Continued

#### A. Defined Benefit Pension Plan - continued

Sensitivity of the City of Pewaukee's proportionate share of the net pension liability (asset) to changes in the discount rate. The following presents the City of Pewaukee's proportionate share of the net pension liability (asset) calculated using the discount rate of 7.20 percent, as well as what the City of Pewaukee's proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (6.20 percent) or 1-percentage-point higher (8.20 percent) than the current rate:

|   | 1% Decrease to Discount Rate (6.20%) | Current<br>Discount Rate<br>(7.20%) | 1% Increase to Discount Rate (8.20%) |
|---|--------------------------------------|-------------------------------------|--------------------------------------|
| City of Pewaukee's proportionate share of the net pension liability (asset) | \$ 4,089,873                         | \$ 310.884                          | \$ (2,599,109)                       |

**Pension plan fiduciary net position**. Detailed information about the pension plan's fiduciary net position is available in separately issued financial statements available at http://etf.wi.gov/publications/cafr.htm.

#### B. Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by commercial insurance purchased from independent third parties. Settled claims from these risks have not exceeded commercial insurance coverage during the past three years.

#### C. Joint Ventures

#### Parks and Recreation

On November 4, 1996 the City entered into an agreement with the Village of Pewaukee to create a joint park and recreation department commencing January 1, 1997. The agreement created a joint board comprised of seven voting and two non-voting members for purposes of facilitating and overseeing the operation of the department. The voting board members, one from each municipality's governing board, two citizen representatives from the Village and three from the City, are appointed to staggered terms.

Operating costs and resulting revenues of the department are apportioned to each participant based upon the percentage determined as part of the budget formulation for the subsequent year. All costs for acquisition, improvement or maintenance of land, buildings and fixtures are borne by the municipality in which the land or facilities are located. Total operating costs for 2017 were \$1,147,905 and the City received \$214,472 for costs apportioned to the Village.

The joint department agreement provides for dissolution of the department in the event of an affirmative vote of the governing bodies. Such dissolution would be delayed for six months to allow time for the joint department to wind up its affairs. Upon dissolution, either of the units of government may provide the other unit of government the opportunity to purchase its interest in the assets of the joint department at the value fixed by agreement or by appraisal.

#### Library

The City of Pewaukee and the Village of Pewaukee jointly operate the Pewaukee Public Library that has provided library services to both communities since 2005. The Joint Library Board consists of seven members, three citizens from each community and one representative nominated by the Superintendent of the Pewaukee School District. Local representatives are appointed by the Mayor, subject to confirmation by the Common Council. The Joint Library Board shall plan for, implement and manage all library services, programs and activities. The Board prepares a budget for the operation and maintenance of the library which is presented to the City and Village on or before August 1 of each year. The City made payments totaling \$744,143 to the library for 2017, or 75% of the shared expenditures.

The intergovernmental agreement is for a twenty-year term and then automatically renews for five-year terms unless notice of intent to terminate the agreement is provided. Termination would become effective on January 1 at least twelve months from the date of notification.

Financial information related to the library as of December 31, 2017 is available directly from the Library Director.

#### D. Segment Information

The City provides water and sewer services. Segment information for the year ended December 31, 2017 is as follows:

|                                     | Water          | Sewer          |              |

### CITY OF PEWAUKEE NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

#### (1) Budgetary Information

Budgetary information is derived from the annual operating budget and is presented using the same basis of accounting for each fund as described in Note 1 (C) to the basic financial statements. The City prepares an annual budget on a basis consistent with generally accepted accounting principles.

The general fund budget is adopted at the departmental level of expenditure. All other governmental funds of the City are adopted at the functional level of expenditure. Transfers between departments and changes to the overall budget must be approved by a two-thirds majority of the Common Council. There were no amendments made to the original approved 2017 budget.

#### (2) Wisconsin Retirement System Pension

The City is required to present the last ten fiscal years' data; however, the standards allow the City to present as many years as are available until ten fiscal years are presented.

There were no changes of benefit terms for any participating employer in WRS.

There were no changes in the assumptions.

SUPPLEMENTARY INFORMATION

Given under my hand and the corporate seal of the City of Pewaukee, County of Waukesha, State of Wisconsin, this 5<sup>th</sup> day of June, 2018.

Kelly Tarczewski – Clerk/Treasurer

# \*NOTICE OF CHANGES FOR SMOKEY'S\*

Lois is asking to be able to serve alcohol outside again. Last year you denied her request due to an illegal non-conforming structures and she was told you'd revisit it the following year. The Clerk's Office needs direction especially because she is looking for the **entire** property and we require specific screened areas.

Lois indicated the tournaments are schedule from April 28<sup>th</sup> – October 20<sup>th</sup>.

#### Consulting Agreement

The City of Pewaukee retains Wrayburn Consulting, LLC through its sole member, Nicholas J. Fuchs, for the purpose of providing municipal planning services as an independent contractor/consultant.

In consideration of such services, agreed to be rendered and furnished by Wrayburn Consulting, LLC, the City of Pewaukee shall compensate Wrayburn Consulting, LLC, at an hourly rate of \$50.00 per hour.

In consideration of the foregoing, Wrayburn Consulting, LLC agrees to use due diligence in performing all plan review services under the direction of the Mayor and Common Council and the City Administrator or his designate.

Services will be rendered on an hourly basis, billable monthly in tenths of an hour.

Either party can terminate this agreement upon a 30 day notice, and the sole liability and entitlement of the parties shall be for services rendered to and through the date of the termination notice.

Dated this 10th day of Affile , 2018.

Wryaburn Consulting, LLC

Nicholas J. Fuchs

#### DESCRIPTION

LED technolgy combined with the Icon luminaires unique form creates the choice solution for modern site lighting applications. The Icon luminaires gentle curves and sleek profile create a shape that is beyond common. Two unique arm choices combined with structural element options provide no limitations in bridging to the architectural application.

#### SPECIFICATION FEATURES

#### Construction

HOUSING: Heavy-wall, one-piece, die-cast aluminum housing has precise tolerance control and repeatability in manufacturing. Integral aluminum heat sink provides superior heat transfer in +40°C ambient environment. DOOR: One-piece, die-cast aluminum construction with toolless release latch. Door swings down and is retained on heavy duty leaf/pin hinge, GASKET: Continuous gasket provided to seal housing to door. HARDWARE: Tool-less release button latches are stainless steel/aluminum construction, painted to match housing and allow access to internal housing and electrical components.

#### Optics

Choice of twelve patented, highefficiency AccuLED Optics™ distributions. Optics are precisely designed to shape the light output, maximizing efficiency and application spacing. AccuLED Optics technology creates consistent distributions with the scalability to meet customized application requirements. Offered Standard in 4000K (+/- 275K) CCT and minimum 70 CRI, Optional 3000K CCT, 70 or 80 CRI. For the ultimate level of spill light control, an optional house-side shield accessory can be field or factory installed. The house-side shield is designed to seamlessly integrate with the SL2, SL3 or \$L4 optics.

#### **Electrical**

LED drivers mount to dis-cast aluminum back housing for optimal heat sinking, operation efficacy, and prolonged life.

Standard drivers feature electronic universal voltage (120-277V 50/60Hz), 347V 60Hz or 480V 60Hz operation, 480V is compatible for use with 480V Wye systems only. Greater than 0.9 power factor, less than 20% harmonic distortion, and is suitable for operation in -40°C to 40°C ambient environments. All fixtures are shipped standard with 10kV/10kA common and differential - mode surge protection. LightBARs feature an IP66 enclosure rating and maintain greater than 95% lumen maintenance at 60,000 hours per IESNA TM-21. Occupancy sensor and dimming options available.

#### Mounting

UPSWEEP ARM: Manufactured of heavy-wall cast aluminum. Internal bolt guides provided for positioning arm to housing and pole, LINEAR ARM: Manufactured of heavy-wall extruded aluminum. Arm features internal bolt guides for positioning arm to housing and pole. STRUCTURAL MOUNT: Die-cast aluminum cleat, factory mounted and finished in luminaire color. Stainless steel structural rod measures 1/2" in diameter and is provided in luminaire finish or optional natural finish. Product functions in conjunction with linear arm. Invue poles provided pre-drilled for suspension mount applications. See Invue pole brochure for complete selection of matching poles, STRUCTURAL WALL MOUNT: Die-cast aluminum cleat, factory mounted to luminaire and finished in luminaire color. Stainless steel structural rod measures 1/2" in diameter and is provided in luminaire finish or optional natural finish, Wall

bracket works in conjunction with linear arm. Mounting arms ordered separately.

#### Slide Arm

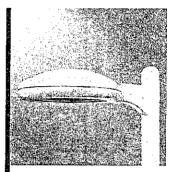

An elegant cantilever arm assembly articulates the icon housing in suspended balance. The extended aluminum arm and rear suspension detail in conjunction with the flowing lines from pole to luminaire provide a dramatic form where excitement in architectural design is desired. Arm weldment assembly manufactured of 6061, 6063 cast aluminum subcomponents. The medium Icon arm (SDM) assembly mounts to a 5" O.D. round straight pole equipped with a 4" O.D. by 10" tall tenon. The Small Icon Arm (SDS) Fits 4" O.D. tenon or slipfits over 4" round straight pole. Arm secures to pole with provided stainless steel bex head fasteners and includes a removable side cap for wire access and inspection.

#### Finish

Housing is finished in five-stage super TGIC polyester powder coat paint, 2.5 mil nominal thickness for superior protection against fade and wear. LightBAR cover plates are standard white and may be specified to match finish of luminaire housing. Standard colors include black, bronze, grey, white, dark platinum and graphite metallic. RAL and custom color matches available. Consult Outdoor Architectural Colors brochure for a complete selection.

#### Warranty

Five-year warranty.

# CITY OF PEWAUKEE COMMON COUNCIL AGENDA ITEM 11.

**DATE:** June 18, 2018

**DEPARTMENT:** PW - Water/Sewer

**PROVIDED BY:** Jeffrey L. Weigel, Public Works Director

#### **SUBJECT:**

Discussion and Action to Approve the Water Reserve Capacity Study (RCA) June 1, 2018 Proposal of Ruekert & Mielke with an Initial Cost of \$15,000 [Weigel]

#### **BACKGROUND:**

The City Water Utility, and its predecessor Town of Pewaukee Sanitary District No. 3 has imposed a Water Reserve Capacity Assessment (RCA) fee due upon connection to the water system since the 1970's. In recent years the Wisconsin Public Service Commission (PSC) staff have questioned the adequacy of the RCA, and required the City Utility to update its model. In 2015 Ruekert & Mielke completed an analysis/study and submitted same to PSC. PSC have questions on that submittal, and is requiring the Utility to further evaluate the RCA study/analysis.

#### FINANCIAL IMPACT:

The need for the study is regulatory compliance. The 2018 W/S Budget had \$20,000 approved for a water system facilities plan. We recommend re-programming \$15,000 towards the RCA study update.

#### **RECOMMENDED MOTION:**

Common Council approves the Water RCA study per the June 1, 2018 Ruekert & Mielke proposal with funding to come from the Water System Facilities Planning funds.

June 1, 2018

Mr. Jeffrey L. Weigel, Ms. Jane Mueller City of Pewaukee W240 N3065 Pewaukee Road Pewaukee, WI 53072

Re: Reserve Capacity Assessment 2018 Review Proposal

Dear Mr. Jeffrey Weigel and Ms. Jane Mueller:

Thank you for granting Ruekert & Mielke, Inc. (R/M) the opportunity to help the City of Pewaukee (City) with reserve capacity assessments (RCA) and compliance with required regulatory accounting. This proposed project builds on the work we did under our proposal dated May 23, 2014, for RCA analysis.

#### The City's Needs

In our meeting on May 24, 2018, we understand that you have the following needs:

- 1. Evaluate the City's compliance with the RCA ordinance.
- 2. Compare RCA revenue with capital expenditures.
- 3. Identify possible changes to the RCA charges, policy, and accounting practices to avoid this issue in the future.
- 4. Present the City's plan to resolve and prevent future RCA issues, to the Wisconsin Public Service Commission. Gain PSC approval of the proposed resolution.

This proposal outlines our proposed approach to meet your needs.

#### **Tasks**

R/M proposes undertaking the following tasks to meet the City's needs:

- 1. Send an initial data request to City staff.
- 2. Attend a meeting to kick-off the project and gather data.
- 3. Evaluate compliance with the RCA ordinance:
  - a. Review the City's RCA ordinance.
  - b. Obtain 2015, 2016, and 2017 new costumer collections, and current RCA charges and collections.
  - c. Recalculate RCA charges for new customers and check against actual charges.

<sup>~</sup> Marketing Dept > PROPOSALS > Proposals 2018 > CT 03\_KRW\_Kenosha > Pewaukee, City > Sewer Rate Ordinance Review, Water & Storm Water Rate and Financial Plan > Proposal > Weigel Mueller- Weigel Mueller- 20180601 - Reserve Capacity Assessment Review Proposal.docx~

- d. Develop recommendations as appropriate to ensure the accuracy of RCA charges.
- 4. Update cumulative RCA collections and capital expenditures since 2003:
  - a. Review the City's PSC annual reports from 2004 through 2017 to determine the total value of plant additions that should have been funded through RCAs, per the City's policy.
  - b. Conduct conference call with Rotroff Jeanson and City staff to identify the plant that should have been funded through other special assessments, or developer agreements, per the City's policy. Get consensus on the value of plant so funded.
  - c. Estimate the value of deferred special assessments based on the City's land use plans.
  - d. Starting with assumed zero balance in 2003, recalculate cumulative RCA collections, expenditures, and net balance.
  - e. Submit a draft calculation of cumulative collections and expenditures and net balance to City staff for review, feedback, and acceptance.
  - f. Submit calculation to PSC to request PSC's acceptance that it fulfills the requirements of the 2014 order.
- 5. Update future RCAs and plant accounting practices:
  - a. Forecast future connections, if appropriate, based on recent history.
  - b. Update forecasted future plant expenditures, if appropriate, based on input from R/M engineering staff.
  - c. Update the starting balance of the RCA fund based on above analysis.
  - d. Update forecasted weighted average interest rate, if appropriate.
  - e. Evaluate the City's policy of deferring RCAs.
  - f. Forecast the trajectory of RCAs.
  - g. Calculate what portion of forecasted plant construction is funded by forecasted RCA collections.
- 6. Garner PSC buy in:
  - a. Write a plan for resolving regulatory accounting for RCAs, funding capital expenditures, and setting RCAs at an appropriate level.
  - b. Meet with PSC accountants to obtain PSC feedback and preliminary acceptance of the City's proposed resolution.
  - c. Present a case that the City should receive a simplified rate increase as it addresses the RCA accounting issues. Pending PSC's and your approval, prepare and submit a simplified rate increase application.

- 7. Present conclusions and recommendations in a report:
  - a. Prepare and submit a draft report to City staff for review.
  - b. Garner feedback and discuss the RCA policy and plant accounting practices with City staff and possibly Rotroff Jeanson.
  - c. Obtain City Council approval as necessary for policy changes.
  - d. Prepare a final report and send to Pewaukee.
- 8. Submit to PSC for approval:
  - a. Submit our report to the PSC.
  - b. Obtain PSC approval of the proposed resolution and future RCA fees and policies.

#### **Proposed Fee**

The project effort depends on what we need to do to gain acceptance from the PSC. We plan to gain an understanding on how much effort may be entailed early in the process by meeting with PSC and presenting a concrete plan of specific steps for their review and feedback. Project effort also depends on the timeliness and quality of data received from Rotroff Jeanson and City staff. An in-person kick-off and data gathering meeting will help us gather and vet data efficiently.

We propose to charge our standard hourly rates of \$140 for economic consultant – three and \$130 for economic consultant – two, plus miscellaneous expenses. Based on our estimate of the effort to gain PSC acceptance, we estimate that we would complete the proposed scope for \$15,000. If the PSC presents unexpected issues that increase the required effort, we will obtain your written approval before continuing work beyond \$15,000.

We look forward to working with you to resolve these issues and continue the Pewaukee Water Utility's financial sustainability and high level of service to residents. Please call us to further discuss your needs, our proposed scope, or anything else in this proposal.

Very truly yours,

RUEKERT & MIELKE, INC.

RE: City of Pewaukee - Water RCA Study

Dear Mr. Weigel,

We have completed a draft of the Water Reserve Capacity Assessment (RCA) update and submit our analysis and findings for your review.

Ruekert & Mielke, Inc. (R/M) was originally retained to update the prior RCA studies and develop a tracking tool that could be used to monitor Water RCA balance and assess the adequacy of the current annual charge through the planning period 2015-2035. This tool comparing actual expenditures to RCA income will enable the City of Pewaukee Water Utility to comply with the Public Service Commission Final Decision in Docket 4625-WR-102. In this docket, the PSC required the Utility to file a report of the cumulative status of RCA collections compared to costs each year. This report is to be filed in conjunction with the Utility's PSC Annual Report by April 1<sup>st</sup> each year.

We prepared a schedule of RCA charges for water facilities using a projection of new customer connections and project costs for the planning period. Project funding includes a combination of RCA cash and new debt issuances. A copy of that analysis is enclosed. We believe that the revised method of forecasting RCA income based on historical analysis will track more accurately with actual experience and address the timing concerns that the PSC staff was concerned with in conducting the 2013-14 water rate case. This method will provide full recovery of the costs that the City can expect to incur for the water projects needed to extend service to future development.

#### Reserve Capacity Assessments

Reserve capacity assessments were computed for facilities based on the premise that new connections to the system should be required to "buy into" the new capacity needed to serve their parcel. In the earlier studies, the RCAs were computed for each infrastructure system by dividing a projection of future planned improvements to be financed through RCAs by the new capacity of the proposed capital facilities in Residential Equivalent Connections (RECs), to arrive at a current charge per REC. For the current study, the present RCA level was increased to provide a base RCA charge beginning in 2015. This new base charge is increased

 $\sim\!\!Pewaukee\ City\ 26\text{-}10031\ PSC\ Rate\ and\ RCA\ Analysis} > 100\ Study > Correspondence > FINAL > Weigel-20150317\text{-}RCA\ Water\ Study.docx} \sim$ 

by an inflation factor of 3.00% per year to meet cash and debt financing requirements over the study period. Annual revenue was calculated by multiplying the applicable annual RCA charge by the 10-year annual average of system REC connections. The 10-year average is 75 new RECs per year. This annual amount is added to the running RCA historical dollar balance. The study included a design forecast of future supply, storage and transmission assets needed to serve new customers through the 2035 planning period. These capital assets were either directly netted out of the RCA balance or financed with estimated new debt and the annual debt service paid out of RCA funds. Using this method, it was determined that the 2014 RCA charge of \$4,208 would need to be increased to the 2015 charge of \$4,328 per REC and inflated 3.00% annually to meet the capital requirements through the design period.

The Tracking Schedule can be updated by the Utility to reflect the recent year's actual RCA revenue and project cost/debt service, and used to assess adequacy of the RCA charge going forward. This Schedule may then be submitted to the PSC as a supplement to the PSC Annual Report in full compliance with the recent PSC water rate decision in Docket 4625-WR-102.

Pursuant to past City practice, RCAs were computed to include each of the following types of assets: existing and future water system supply, storage and transmission mains to serve new customers. The PSC's schedules and rate case work papers showing 2012 plant adjusted to comply with the 2003 amended PSC accounting requirements of the Uniform System of Accounts is the basis for this study. These schedules were then adjusted as follows:

- 1) RCA funded plant was added for CY 2013 per information provided by the Utility's accounting firm Rotroff, Jeanson & Company.
- 2) RCA funded plant was added for CY 2014 per information provided by the Utility.
- 3) Capital costs for treatment plant included in the PSC staff estimate for the period 2004-2012 was adjusted to remove treatment plant capital cost which is typically not funded with RCAs. This is consistent with PSC staff Anne Waymouth's November 26, 2013 letter to Jeff Weigel regarding the RCA and related rate case issues.
- 4) Water system assets were adjusted to include an estimate of planned facility costs to be financed in part or total by RCA funds 2015 through 2035. The Utility's review of the cost breakout of recent water main projects was used to calculate the portion of the water main project estimated to be funded with RCAs.

5) The total historical value of RCA collections was reduced by the amount of outstanding long-term debt associated with RCA funded plant to arrive at the current balance of the RCA fund.

## **RCA Charge and Application**

As shown in Table 5 of the enclosed analysis, the 2015 water utility RCA is \$4,328 per REC. This base rate would be inflated 3.00% per year through the design period to be adjusted as needed to reflect actual costs/changes over the study period. The water RCAs would apply only to new connections within the City of Pewaukee to be provided with water service. Consistent with the recent past they would not be applied on private fire protection connections. We recommend laterals larger than one-inch be charged based on the rate multiplied by the PSC established ratio of equivalent service laterals but not to exceed the charge on a 3-inch lateral. This creates more equity between large and small users without jeopardizing desirable business growth.

The planned cost of future capital facilities, in terms of RECs, was computed based on information and data contained in the above-referenced PSC rate case workpapers from Docket 4625-WR-102 and R/M planning documents of supply, storage and transmission mains for the period 2015-2035.

#### **Evaluation of RCA Use**

The RCA alternative is consistent with past and current City practice in funding water supply, storage and transmission main capital costs. By adopting the past methodology of determining the RCA charge it continues the rate philosophy previously used. By simplifying the application to the historical 10-year annual REC connection average it makes the tracking mechanism more administratively feasible and realistic in terms of the dollars that can be depended on to be generated over the typical 20-year life of bonds or other debt vehicles. Because of the magnitude of the projected capital improvements to be funded with RCA dollars, it is necessary to provide long-term financing. The associated debt service can be paid using RCA cash, but will require structuring the bonds to pay only annual interest with the full principal due with the final payment.

Broadly speaking, RCAs have the advantage of fewer fund management requirements as compared for example to an Impact Fee. Each separate component of the RCA does not have to be deposited into a separate account. There is also no requirement that RCAs be applied only to the proportionate share of the cost of each improvement needed to serve future development.

A disadvantage of using RCAs is that the PSC is now requiring the Utility to provide annual tracking and reporting of actual RCA revenues and expenditures. In so doing the PSC is

ensuring that the capital facilities that are needed and authorized by the Agency in separate construction dockets can be adequately funded outside of water rates. The PSC is not allowing RCA funded project costs in water utility rate base. Thus the water rates it sets for the Utility will not provide for these capital costs. The Utility will need to annually review its RCA fund balance, actual RCA project cost and determine the adequacy of its RCA charge. While an additional step to administer, this process is healthy in that it results in the Utility knowing the adequacy of its RCA charge in conjunction with its PSC set water rates and other developer and special assessments in being adequate to meet the cash flow needs of the Utility. Ultimately, it serves to better inform the Utility as to its overall financial viability as it expands to serve a growing customer base.

Although the Utility is not required to maintain a separate fund for the RCAs in order to meet PSC tracking requirements, it should establish segregated accounting that enables it to identify the RCA balance at any point in time. The detail or at least the RCA balance should be made part of the Utility's financial statements and PSC filed Annual Report.

#### Conclusions and Recommendations

The City should adopt the revised RCA fee structure as a means of reasonably meeting its capital cost needs consistent with its past and that does achieve a fair outcome between existing and new customers. Using the historical RCA alternative is consistent with the PSC's understanding and recent water rate treatment of the capital costs for supply, storage and transmission facilities in the water rate case in Docket 4625-WR-102.

In adopting and administering the revised RCA fee option, the City/Utility needs to regularly take the following actions:

- 1) Annually review and account for the actual capital expenditures and RCA collections. Provide segregated accounting of these financials. File this information as part of its PSC Annual Report.
- 2) Every 3 years revisit the proposed project list for the 2015-2035 study period and adjust it to show actual cost and projected changes as system needs evolve.

The proposed alternative should be reviewed by the City Attorney with respect to the legal aspects of implementation.

Very truly yours,

RUEKERT & MIELKE, INC.

#### RESERVE CAPACITY ASSESSMENTS FOR WATER SYSTEM FACILITIES

#### RESERVE CAPACITY ASSESSMENTS

The City of Pewaukee assesses a Reserve Capacity Assessment (RCA) for water system facilities against new development.

Wisconsin Statutes §66.0703 authorizes municipalities to levy and collect special assessments upon property for special benefits conferred upon such property by municipal work. Reserve Capacity Assessments are established to provide a mechanism to fund excess capacity in the water system needed to serve future users. The Reserve Capacity Assessments computed in this report are based on the premise that new users are required to buy into the amount of excess capacity needed to serve their development.

The City initially levied the Reserve Capacity Assessments for water system facilities in approximately 1977. The amounts of the charges were re-evaluated and revised in 1996 and 2004 due to a number of new capital improvements undertaken by the City. This report re-evaluates the charges again based on anticipated significant capital improvements for the water facilities in the planning period 2015-2035. The report consists of the following schedules:

- 1. Reserve Capacity Assessment for existing RCA charges Table 1
- 2. Pewaukee REUs and Total Dollars Collected Table 2
- 3. Forecast Capital Improvements to be Funded in Part by RCAs Table 3
- 4. Cash and Debt Financing for Project Costs Table 4
- 5. RCA Fee Computation and Cash Flow Projection Table 5
- 6. Appendix including Report on Water Supply, Pumping and Storage Facilities Needed to Serve Future Demands

The properties against which the Reserve Capacity Assessments are proposed include all properties within the City of Pewaukee that are not yet connected to the municipal water system. These properties are benefited by the availability of reserved excess capacity in the City's water system and the future improvements. The Reserve Capacity Assessments constitute an exercise of municipal authority as outlined in Wis. Stats §66.0703.

Reserve Capacity Assessments may be deferred as determined by the City Council but become due and payable at connection to the water system. The City does not mandate connection but deferred assessments will be adjusted annually according to the RCA charge listing in Table 5.

### Reserve Capacity Assessment for Existing Water System Capacity

The existing City water supply and distribution system serves customers within the City of Pewaukee only. The system consists of wells, pumping stations, booster stations, storage tanks and reservoirs, and water mains, hydrants, valves and meters.

Based on projected costs of needed new well capacity, storage and transmission mains in the 2015-2035 study period and forecast new customer connections through 2045, an annual RCA per Residential Equivalent Connection (REC) is computed as shown in Table 5. The RCA dollar balance is used to fund new well capacity, storage and transmission mains (oversizing). Certain transmission main projects are funded in part or whole by developer contribution or special assessments. Other capital costs including treatment that benefits new and existing customers alike is financed through general service rates as prescribed by the Public Service Commission (PSC).

#### Reserve Capacity Assessment for Planned Water System Capacity

In 2014, as part of the RCA evaluation, Ruekert/Mielke prepared water supply, storage and transmission facilities planning through 2035 for the City. This planning effort evaluated the capacity of the system to serve both existing and future customers and is incorporated herein by reference with a summary in the Appendix to this Report. The planning study recommended additional well, pumping station, treatment, storage and transmission main facilities. The improvements will be needed primarily to provide excess capacity for anticipated future development in the City of Pewaukee and generally will be funded through RCAs or debt financing amortized with RCA cash.

The cash flow projection in Table 5 takes into account the actual fee collections to date, future debt service for future projects and projected fees to be collected from new development in the future. Based on this analysis, the calculated RCA for 2015 would be \$4,328 per REC. This amount would be increased annually for inflation (3.00% in attached Table 5). The RCA fee represents the amount that would generate sufficient revenues to cover the RCA share of cash or debt service given the underlying assumptions.

The estimated total cost of the planned water system improvements, including estimated future transmission water mains for the planning period is \$29,583,530<sup>i</sup>. Approximately \$11,774,019 would be RCA funded either with cash payment or debt amortized with RCA funds. Based on the estimated cost and the total forecast number of REU connections over the planning period, an annual Reserve Capacity Assessment per REC is computed for the facilities as shown in Table 5.

| 2046      | 75       | \$10,824.00 | \$811,800    | (\$877)    | \$0               | \$635,435   |
| Total     |          |             | \$26,409,830 | \$483,070  | (\$26,257,464)    |             |

1. Assumes 3.00% annual rate increase after 2015

2. Assumes 0.50% interest rate per year on the RCA fund balance

#### **APPENDIX**

## City of Pewaukee Water Supply, Pumping and Storage Facilities Needed to Serve Future Demands September, 2014

The City of Pewaukee water supply, pumping and storage facilities are adequate for meeting current and near future demands. This capability exists without the need for Wells 5 and 8. The Well 8 pumping station currently is under construction. This well project started over 10 years ago, with hydrogeologic investigation looking for sites where high capacity shallow wells could be drilled. At that time it was anticipated that additional well capacity would be needed in the near future. The production well was completed in 2009 but construction of the pumping station was delayed, in part due to the severe slow down in development caused by the recession. Development is beginning to return, so the decision was made to construct the pumping station.

Well 5 has been in service since 1993. In 2014, the Wisconsin Department of Natural Resources (DNR) notified the City that the water discharged by the well was in violation of the standard for gross alpha emissions. The City has since minimized the use of Well 5 and recently submitted to the DNR a preliminary schedule for getting the well back into compliance. It is expected that it will be necessary to construct treatment facilities at Well 5 to remove the sources of the alpha emissions.

As stated above, the City's existing supply, pumping and storage facilities, not including Wells 5 and 8, are adequate for meeting current and near future demands. However, Well 5, Well 8 and additional facilities will be needed to meet the demands projected to occur with full build-out of developable land in the City.

An additional 1.00 MGD of well capacity will be needed to meet future demands. The City's two most recent wells were constructed in the shallow dolomite aquifer. Water in this aquifer is low in radionuclides. Unfortunately, extensive investigation has determined that it will be difficult to find additional high capacity dolomite well sites within the City. The sandstone aquifer underlies the entire City, but the water from this aquifer is likely to contain radionuclides, possibly in excess of the allowable limit. At three of the City's existing well sites, both shallow dolomite and sandstone wells were drilled. The water from the wells is blended in an on-site reservoir. The blended water, which is compliant with the radionuclide standards, is then pumped to customers. Blending is the least expensive method of achieving compliance with the radionuclide standards.

For a portion of the City's future water supply needs, it is proposed to drill a sandstone well at the Well 8 site. A 500 gpm well is proposed, which would allow blending at approximately a one-to-one ratio. The actual blending ratio needed to achieve compliance can't be known until the sandstone well is drilled and the water tested. It may be necessary to pump the sandstone well at less than 500 gpm in order to assure compliance with the radionuclide standards.

Assuming the sandstone well can be pumped at 500 gpm, at least 200 gpm of additional well capacity will be needed. It is proposed to construct an additional well in the northwest part of the City. Currently there are no water system facilities in the northwest part of the City. This portion of the City is somewhat isolated because it is separated from the remainder of the City by the Village of Pewaukee. In order to provide water service to this area, it will be necessary to construct a water main through the Village. Because the northwest part of the City will be supplied through a single long transmission main, it is recommended that the future well be constructed there. The land in the far west part of the City may be underlain by a significant sand and gravel aquifer. Hydrogeologic investigations will be needed to explore for potential well sites.

Current storage capacity is adequate. The Well 8 facility includes a 0.29 MG reservoir which will be needed to meet projected future demands. For a number of years it has been planned to replace the existing 250,000 gallon elevated tank located at the City Hall site with a larger tank. The original location selected for the new tank was initially approved, but subsequently rejected by Waukesha County for being too close to the Waukesha County Airport. The location currently under consideration is at the City Hall site. A 750,000 gallon tank was approved by the DNR and PSC.

A future 200,000 gallon tank will be located in the northwest portion of the City, west of the Village of Pewaukee, when that area develops.

# FINANCIAL SERVICES

## **OVERVIEW**

Is your community concerned about looming infrastructure needs, encroaching property tax limits, rising utility rates, or tightening regulations? Are you meeting the high expectations for service quality and reliability?

Ruekert & Mielke, Inc. (R/M) partners with municipalities and companies to find and solve financial challenges. Our deep knowledge and expert analysis give our clients confidence.

## **PROJECT SPOTLIGHT**

- Sussex, WI & Racine, WI water and wastewater rates, intermunicipal cost and revenue sharing agreements
- Fox Point, WI & Slinger, WI storm water rates and credit policies
- New Berlin, WI & Racine, WI Great Lakes diversion applications
- Racine, WI conservation and water loss planning
- Franklin, WI; Waukesha, WI; Sheboygan, WI; and Hartford, WI impact fees and assessments studies
- Franklin, WI; Kenosha, WI; Milwaukee, WI; and a Wisconsin ethanol plant expert witness in contested PSC proceedings
- Pewaukee, WI litigation support
- Hudson, WI & Racine, WI utility consolidation studies, evaluation
  of public fire protection direct charges, and utility acquisition
  support including regulatory approvals
- Erie, PA capital planning

"With assistance from R/M's financial team, water rate applications to the Public Service Commission have never been easier. R/M's experts have extensive financial knowledge and know how to apply it. R/M's relationships and location in Madison make working with state agencies a breeze. They successfully navigate the bureaucracy in Madison and deliver results."

# **WATER RESOURCES**

### STORM WATER MANAGEMENT

Ruekert & Mielke, Inc. (R/M) is highly experienced in completing the full range of storm water management and erosion control projects, from planning and design through construction review. We take a comprehensive approach to storm water management, looking at both short and long-term solutions as they relate to environmental concerns, land use plans, future population projections, and commercial development. Grant opportunities and storm water utility formation are supplementary services that we are proud to provide to our clients.

R/M utilizes our web-based geographic information systems (GIS) portal as a primary communication and delivery tool for our storm water management projects. The GIS graphic interface provides a simple interface for water quality and flood control modeling results, providing community staff with an effective method to present results to elected officials and project stakeholders.

- City of Greenfield Wildcat Creek Waterway Improvements
- City of Kenosha Water Resources Master Plan
- City of Wauwatosa Ruby Avenue Flood Mitigation
- City of Watertown Comprehensive Storm Water Management Plan

"Working with R/M has been wonderful, as they provide professional expertise, explanation, quality work, and efficiency."

# **ANDREW** J. BEHM

FINANCIAL ANALYST, Madison Location abehm@ruekert-mielke.com • 608.819.2600

## **PROFILE**

Andrew joined Ruekert & Mielke, Inc. (R/M) in 2016 as a Financial Analyst. Before joining R/M, he worked providing management and financial assistance to municipal water, wastewater, and energy utilities in Wisconsin and around the country, including work as an analyst at the Wisconsin Public Service Commission. At R/M, he continues to help municipalities find financial and management solutions for public utilities.

## **EDUCATION**

- B.S. Economics
   University of Wisconsin
- Master of Public Affairs
   University of Wisconsin
   Madison

## **EXPERIENCE**

## **Water Cost of Service & Rate Design**

Andrew analyzed cost of service and designed rates for approximately 80 municipal water utilities in Wisconsin and around the country. In 2009, Andrew designed conservation rates for the City of Janesville, WI that were among the first in the state. Andrew helped the City of Beloit, WI and the Town of Menasha, WI communicate water rate increases to industrial customers and collaborate with those customers.

## **Wastewater Cost of Service & Rate Design**

Andrew has analyzed cost of service and designed wastewater rates in multiple municipalities in Lake County, IL as well as in New London, WI, facilitating proactive meetings with industrial customers to explain the need for rate changes and discuss the impact on customers.

### **Cost Sharing Agreements**

Andrew audited an inter-municipal water cost sharing arrangements for the City and Township of Marquette, MI and another for the Cities of Holland and Zeeland, MI. Andrew audited cost sharing bills twice between Xcel Energy and Southern Minnesota Municipal Power Agency. He also twice audited cost sharing bills among the three joint owners of the Redbud Generating Plant in Oklahoma.

## **Electric & Natural Gas Cost of Service & Rate Design**

Andrew prepared cost of service analysis and designed rates for municipal utilities around the country, aiding municipalities in Missouri, California, and Iowa. Andrew was a key communicator when performing a rate study for Gainesville Regional Utilities (GRU) in Florida, which included analysis for wholesale customers and electric generation owned by GRU. Andrew also prepared electric rate applications to the Wisconsin Public Service Commission for Richland Center, WI and New London, WI.

## **Water Cost of Service Expert Witness**

Andrew served as an expert witness in contest rate proceedings for Kenosha Water Utility and Milwaukee Water Works. His testimony covered customer demands, water for public fire protection, and the allocation of water mains and storage, among other areas. He helped the Village of Pleasant Prairie and the City of Kenosha voluntarily agree to beneficial operational changes despite their ongoing contested proceeding before the Public Service Commission.

# **EDWARD** F. MAXWELL

FINANCIAL ANALYST, Madison Location emaxwell@ruekert-mielke.com ● 608.819.2600

## **PROFILE**

Edward joined Ruekert & Mielke, Inc. (R/M) in 2017 as a financial analyst. Before joining R/M, he worked in private-sector finance, analyzing capital investments, forecasting expenses and revenue, and crafting department budgets. At R/M, he creates financial solutions for all clients, from municipalities to corporate businesses.

## **EDUCATION**

- Bachelor of Arts in English -Lawrence University, Appleton
- Master of Business
   Administration Corporate
   Finance & Investment Banking
   - Wisconsin School of Business
   Madison

## **EXPERIENCE**

### **Wastewater Cost of Service Rate and Design**

Edward has analyzed cost of service and designed rates for utilities for communities ranging from Thiensville, Wisconsin, to Erie, Pennsylvania. For Erie's utility, Edward forecasted the cash flow and the rate increases needed to fund the increased debt service from all the infrastructure upgrades required in the next ten years.

#### **RCA Studies**

Edward has conducted RCA studies and offered recommendations for fee schedules. Based on the study he performed for Hartford sewer, Edward proposed several alternatives that would ensure Hartford sewer's capital expenditures for new development would be fully funded.

## **Forecasting**

Edward has forecasted demand and expenses. Analyzing trends, he has forecasted demand for several products nationwide. He has forecasted expenses for departments at several corporations on line items, including obsolescence, marketing, and selling.

## **Capital Projects Evaluation**

Edward has analyzed numerous capital projects, including equipment to revamp the largest product line at Springs Window Fashions. Using the capital asset pricing model, he determined the rate of return on these investments.

#### **Ordinance Revisions**

Edward has revised ordinances for municipalities to ensure compliance with law changes and to reflect best practices. For Fox Point, he revised the storm water ordinances so that Fox Point was complying with NR 151 and had language that encouraged green infrastructure.

## **Budget Creation**

Edward has partnered with multiple departments in corporations to develop annual budgets. He helped the departments provide business cases to management to justify their proposed budgets. At Lands' End, he worked with marketing to solve a budget overage.

# MAUREEN A. MCBROOM

**ENVIRONMENTAL COORDINATOR**, Waukesha/Milwaukee Locations

mmcbroom@ruekert-mielke.com • 262.542.5733

## **PROFILE**

Maureen is dedicated to the protection and improvement of Wisconsin's resources through close collaboration with municipalities and their citizens. Efficient & effective implementation, driven by strong relationships and communication, are drivers behind her project implementation strategies. She has experience in the WDNR's Runoff Program, specifically issuing WPDES Permit coverage for construction site erosion control & long-term storm water plans, industrial storm water sites and municipal separate storm sewer system (MS4) permittees. Maureen has been with R/M since 2015

## **EDUCATION**

- B.S. Environmental Science
   Carroll College (University)
- Wetland Delineation Training -University of Wisconsin, LaCross

# REGISTRATIONS & AFFILIATIONS

- NASECA Certified Erosion Contro Inspector
- NASECA-WI Project Committee
   Co-Director
- Southeastern Wisconsin
  Watersheds Trust (Sweet Water)
  board member
- Founding member and co-chair of Southeast Region Green Tier Support Team (internal DNR team
- Founding member of the Rock River Storm Water Group (2008)
- Former member of the Rock River TMDL Implementation Team (internal DNR team)
- Former co-chair of the Rock River TMDL Implementation – Urban Storm Water Sector Team (internal DNR Team)
- Former member of the Urban Storm Water Sector Team sub-committee to draft TDML implementation language for statewide MS4 permits

## **EXPERIENCE**

\*includes project experience prior to joining R/M

### **Storm Water Management Planning**

Drafted and developed community-wide storm water plans to manage storm water and improve water quality, specifically addressing TMDLs.

City of Oconomowoc, WI; Village of Dousman, WI; Village of Hartland, WI; Village of Fox Point, WI

### **TMDL** Implementation

Mid-Moraine Water Quality Collective - collaborating with municipalities, consulting firms, and non-profit groups to find costeffective and common sense solutions to water quality improvement goals in the Milwaukee River watershed

### **Waterway Improvement Projects**

Village of Sussex, WI - Spring Creek Daylighting project: assisted with grant funding, permit review for channel realignment and naturalization project; Town of Genesee, WI - Genesee Roller Mill Dam removal project: on-site daily during dam removal, channel realignment and stabilization; established and maintained new vegetation along channel and former mill pond

## Water Quality Planning

City of Waukesha, WI - Frame Park Creek / Upper (IL) Fox River Subwatershed; Mason Creek Sub-watershed, WI - Mason Creek River Protection Group

### **Additional Experience**

Past Member of the SEWRPC Regional Chloride Impact Study Technical Advisory Committee

SWWT Regional Green Infrastructure Roundtables - participant

Managed urban storm water grant program (construction and planning grants) for 3 counties

Assisted with drafting and revising Waukesha County erosion control and post-construction storm water ordinance through the Waukesha County Storm Water Advisory Council (SAC)

# **MAUREEN** A. SCHNEIDER

PROJECT ENGINEER, Waukesha Location

mschneider@ruekert-mielke.com • 262.542.5733

### **PROFILE**

Maureen is passionate about finding effective, efficient, and environmentally sustainable solutions to engineering problems. She has been employed with Ruekert & Mielke, Inc. (R/M) since September of 2017 as a Project Engineer. Prior to this, she graduated from Milwaukee School of Engineering in 2014 and received a Masters of Freshwater Science and Technology from the University of Wisconsin-Milwaukee in 2017. At R/M, Maureen is involved in a wide variety of projects, including the development of storm water management plans, WinSLAMM and water distribution system modeling, grant writing, regulatory permit applications, and other storm water and water quality improvement projects.

## **EDUCATION**

- B.S. Milwaukee School of Engineering, Milwaukee, WI, BioMolecular Engineering with Chemistry Minor
- M.S. Freshwater Science and Technology, UW-Milwaukee, Milwaukee, WI

# REGISTRATIONS & AFFILIATIONS

- Southeastern Wisconsin
  Watersheds Trust (Sweet
  Water) Bacteria Working Group
  Member
- Strategic Grant Development Workshop, December 2017, Milwaukee, WI
- Using WinSLAMM: Meeting Urban Stormwater Management Goals, February 2018, Madison, WI
- Waukesha County Storm Water Workshop Presenter: "Bacteria in Storm Water", March 2018.

## **EXPERIENCE**

# **Storm Water Management Plans and MS4 Permit Compliance**

Town of Norway, Town of Randall, Village of Saukville, Village of Fox Point, Town of West Bend, Village of Elm Grove

Maureen has contributed to the development of Storm Water Management Plans for the above communities. She also assisted the communities with other permit related requirements, such as annual reports, winter road management plans, illicit discharge programs, etc.

## **Waterway Improvement Projects**

## City of Greenfield, Village of Brown Deer

Maureen has worked on several stream restoration projects. Maureen has assisted in the Village of Brown Deer's efforts to remove concrete lining in Beaver Creek to naturalize the stream. She has also contributed to the Wildcat Creek Restoration project in the City of Greenfield. Maureen has worked on design aspects, acquiring necessary regulatory permits, as well as developing erosion control, vegetation, by-pass, spills, and de-watering plans for these projects.

## **Water Quality Modeling**

## Town of West Bend, Village of Saukville

Maureen contributes to water quality mapping and WinSLAMM modeling for municipal Storm Water Management Plans. This information is used to determine if the municipality's existing conditions are in compliance with regulatory requirements. If they are not in compliance, Maureen's modeling work includes developing new storm water solutions to help them meet their goals. An important part of this work is keeping open lines of communication between R/M, regulatory agencies, and the community staff. This ensures that the final product will be accepted by all parties involved. Maureen excels at timely, effective communication and developing good working relationships with clients.

# CITY OF PEWAUKEE COMMON COUNCIL AGENDA ITEM 12.

**DATE:** June 18, 2018

**DEPARTMENT:** PW - Water/Sewer

**PROVIDED BY:** Jeffrey L. Weigel, Public Works Director/City Engineer

#### **SUBJECT:**

Discussion and Action to Approve the June 1, 2018 Proposal from Ruekert & Mielke to Evaluate the Sewer Utility Rate, the Storm Water Utility Rate, and Develop a Plan for the Repayment of Sewer Utility Funds [Weigel].

#### **BACKGROUND:**

Earlier this year we reported that the Water Utility has used Sewer Utility funds to pay for Water Utility Projects. We also identified the need for the rate based utilities (Water, Sewer and Storm Water) to establish and maintain a fee structure attendant to the needs of the respective utility. The Storm Water Fee has not been reviewed and evaluated since its inception in 2011. The Sewer Utility fee is due for review. We also believe it prudent to include the development of a plan to reimburse the Sewer funds used by Water Utility as a part of this financial evaluation effort.

#### FINANCIAL IMPACT:

The 2018 Sewer Budget includes \$40,000 for Sewer Facilities planning. We recommend re-programming \$19,340 of this \$40k for the Water Utility repayment plan to Sewer Utility (\$9,800) and Sewer Utility Ordinance evaluation (\$9,540). We recommend that the Storm Water Rate/Project funding come from a re-programing \$11,032 of the TMDL Reduction fund(\$24,000) as the TMDL regulations have not yet come forward.

#### **RECOMMENDED MOTION:**

Common Council approves the June 1, 2018 proposal from Ruekert & Mielke to Water, Wastewater, and Storm Water study proposal with the funds coming from Sewer Facility Planning (\$19,340) and Storm Water TMDL (\$11,032).

#### **ATTACHMENTS:**

Description

June 1 2018 R & M Rate proposal Qualifications

4001 Nakoosa Trail, Suite 200 • Madison, WI 53714-1380 • Tel. (608) 819-2600

June 1, 2018

Mr. Jeffrey L. Weigel, Ms. Jane Mueller City of Pewaukee W240 N3065 Pewaukee Road Pewaukee, WI 53072

Re: Water, Wastewater, and Storm-water Proposal

Dear Mr. Jeffrey Weigel and Ms. Jane Mueller:

Thank you for granting Ruekert & Mielke, Inc. (R/M) the opportunity to help the City of Pewaukee (City) manage its utility finances. This proposal has three parts; addressing the finances of water, wastewater, and storm-water. R/M will submit a separate proposal for work with the Public Service Commission and regulatory accounting for the City's reserve capacity assessments.

### The City's Needs

In our meeting on May 24, 2018, we understood that you have three main needs:

- 1. A plan for the City's water utility to repay funds borrowed from City's wastewater utility.
- 2. A review of the City's draft wastewater ordinance to inspect the rate revision process and to check fees for loopholes.
- 3. A review of the City's storm-water rates, cash reserves, and planned storm-water projects.

This proposal outlines our proposed approach to meet these needs.

### **Project Scope**

We propose undertaking the following tasks to meet the City's needs:

#### **Initiate Project**

- 1. Prepare and send to the City an initial request for data.
- 2. Attend and lead kick-off meeting with the City to establish communication processes and review the project scope, timeline, and also the initial data request.

<sup>~</sup> Marketing Dept > PROPOSALS > Proposals 2018 > CT 03\_KRW\_Kenosha > Pewaukee, City > Sewer Rate Ordinance Review, Water & Storm Water Rate and Financial Plan > Proposal > Weigal Mueller - Weigel Mueller - 20180601 - Water, Wastewater, and Storm-water Proposal.docx~

### Water Utility Plan

- 3. Gather financial and operating information for water utility from Public Service Commission annual reports and City records, including cash reserves and amount owed to wastewater utility.
- 4. Develop a financial forecast model.
- 5. Talk with City staff about reasonable assumptions for the forecast model.
- 6. Develop cash reserve goals based on industry-best practice, and write a recommended cash reserve policy.

### Wastewater Ordinance

- 7. Gather wastewater financial and operating information.
- 8. Review the rate revision process for the draft ordinance, and also the fees for new development.
- 9. Compare the ordinance rate revision process to best practices used in other municipalities.
- 10. Sensitivity-test the ordinance rate revision process to understand the range of likely results. Stress-test to ensure the process works correctly even with unexpected input values.
- 11. Talk with City staff about loopholes in wastewater development fees experienced in the past. Search the ordinance for loopholes and compare to best practices.
- 12. Recommend ordinance revisions to resolve any problems discovered.

## Storm-water Rates and Projects

- 13. Gather storm-water financial information and planned projects.
- 14. Review planned projects. Recommend project priority and timing for the next five years. Incorporate projects to prepare for possible future regulations, such as chloride reductions and a Total Maximum Daily Load study for the Illinois Fox River system.
- 15. Develop an impaired waters strategy to comply with Part 1 G 2 of the City's Wisconsin Pollutant Discharge Elimination System municipal separate storm sewer system Permit Number WI-S050105-3. Incorporate the prioritized stormwater projects into the impaired waters strategy as appropriate.
- 16. Recommend storm-water rates and a written reserve policy based on financial information and planned projects.

### Conclude Project and Report

- 17. Write draft report describing our conclusions and recommendations.
- 18. Meet with City staff and decision makers to present conclusions and recommendations, answer questions, and gather feedback.
- 19. Write a final report incorporating your feedback.

### <u>Deliverables</u>

We propose to provide the following deliverables to the City:

- 1. Initial data request
- 2. Recommended written water utility cash reserve policy
- 3. Recommended revisions to the draft wastewater ordinance
- 4. A draft report and opportunity for City staff to ask questions and discuss them to ensure full understanding.
- 5. A prioritized list of recommended storm-water projects
- 6. An impaired waters storm-water strategy
- 7. A draft report presenting our conclusions and recommendations. We expect the draft report to comprise five to twenty pages, plus supporting tables, depending on the number of project components.

#### **Scope Assumptions**

Our proposed scope assumes that you provide requested data in a timely fashion. An inperson kick-off and data gathering meeting will help us gather data efficiently. Our proposed scope includes one draft report and a dedicated opportunity for you to provide input. You are welcome to share your input at any time during the project.

We are available to provide services outside our proposed scope. With your written approval, we would perform additional services and charge our standard rates in effect at the time we perform the work.

#### Proposed Fee

We can execute the project most efficiently by undertaking the three components simultaneously. However, our proposal gives City flexibility to undertake some components of the project and not others or to undertake components one at a time rather than simultaneously.

We propose to complete all three project components simultaneously for a lump-sum price of \$17,732, including reimbursable expenses. We would perform these services in

accordance with the attached terms and conditions. To provide flexibility, we propose the following lump-sum prices for individual project components:

| Water Utility Plan             | \$9,800  |
|--------------------------------|----------|
| Wastewater Ordinance           | \$9,540  |
| Storm-water Rates and Projects | \$11,032 |

The individual prices also include reimbursable expenses. The sum of the individual prices exceeds the combined price, representing the efficiency of performing multiple components at the same time. We have not shown every possible combination of components. Please contact us if you need more information about the cost to perform two project components or to perform components one at a time.

We will proactively communicate with you throughout the project at an agreed-upon frequency. The updates will keep you apprised of our status with respect to the scope, tasks completed and remaining, the timeline we anticipate for remaining tasks, and any changes to the project.

We look forward to working with you to ensure the Pewaukee water, wastewater, and storm-water utilities' financial sustainability and efficient service to Pewaukee residents. Please call us to further discuss your needs, our proposed scope, or anything else in this proposal.

Very truly yours,

RUEKERT & MIELKE, INC.

# FINANCIAL SERVICES

## **OVERVIEW**

Is your community concerned about looming infrastructure needs, encroaching property tax limits, rising utility rates, or tightening regulations? Are you meeting the high expectations for service quality and reliability?

Ruekert & Mielke, Inc. (R/M) partners with municipalities and companies to find and solve financial challenges. Our deep knowledge and expert analysis give our clients confidence.

## **PROJECT SPOTLIGHT**

- Sussex, WI & Racine, WI water and wastewater rates, intermunicipal cost and revenue sharing agreements
- Fox Point, WI & Slinger, WI storm water rates and credit policies
- New Berlin, WI & Racine, WI Great Lakes diversion applications
- Racine, WI conservation and water loss planning
- Franklin, WI; Waukesha, WI; Sheboygan, WI; and Hartford, WI impact fees and assessments studies
- Franklin, WI; Kenosha, WI; Milwaukee, WI; and a Wisconsin ethanol plant expert witness in contested PSC proceedings
- Pewaukee, WI litigation support
- Hudson, WI & Racine, WI utility consolidation studies, evaluation
  of public fire protection direct charges, and utility acquisition
  support including regulatory approvals
- Erie, PA capital planning

"With assistance from R/M's financial team, water rate applications to the Public Service Commission have never been easier. R/M's experts have extensive financial knowledge and know how to apply it. R/M's relationships and location in Madison make working with state agencies a breeze. They successfully navigate the bureaucracy in Madison and deliver results."

- Utility Demand and Revenue Forecasting
- Asset Management and Capital Improvement Plans

# **WATER RESOURCES**

### STORM WATER MANAGEMENT

Ruekert & Mielke, Inc. (R/M) is highly experienced in completing the full range of storm water management and erosion control projects, from planning and design through construction review. We take a comprehensive approach to storm water management, looking at both short and long-term solutions as they relate to environmental concerns, land use plans, future population projections, and commercial development. Grant opportunities and storm water utility formation are supplementary services that we are proud to provide to our clients.

R/M utilizes our web-based geographic information systems (GIS) portal as a primary communication and delivery tool for our storm water management projects. The GIS graphic interface provides a simple interface for water quality and flood control modeling results, providing community staff with an effective method to present results to elected officials and project stakeholders.

- City of Greenfield Wildcat Creek Waterway Improvements
- City of Kenosha Water Resources Master Plan
- City of Wauwatosa Ruby Avenue Flood Mitigation
- City of Watertown Comprehensive Storm Water Management Plan

"Working with R/M has been wonderful, as they provide professional expertise, explanation, quality work, and efficiency."

-City of Kenosha, WI

## **SERVICES**

- Storm Water
   Management System
   Planning and Design
- Green Infrastructure
- Construction of Individual and Regional Storm Water Management Facilities
- Floodplain Modeling and Mapping
- National Pollutant
   Discharge Elimination
   System (NPDES) Permit
   Compliance Assistance
- Streamhank Stabilization
- Storm Water Utility Creation and Rate Studies
- Storm Water Grant Preparation
- Geographic Information System (GIS) Solutions

# **ANDREW** J. BEHM

FINANCIAL ANALYST, Madison Location abehm@ruekert-mielke.com • 608.819.2600

## **PROFILE**

Andrew joined Ruekert & Mielke, Inc. (R/M) in 2016 as a Financial Analyst. Before joining R/M, he worked providing management and financial assistance to municipal water, wastewater, and energy utilities in Wisconsin and around the country, including work as an analyst at the Wisconsin Public Service Commission. At R/M, he continues to help municipalities find financial and management solutions for public utilities.

## **EDUCATION**

- B.S. Economics
   University of Wisconsin
- Master of Public Affairs
   University of Wisconsin
   Madison

## **EXPERIENCE**

## Water Cost of Service & Rate Design

Andrew analyzed cost of service and designed rates for approximately 80 municipal water utilities in Wisconsin and around the country. In 2009, Andrew designed conservation rates for the City of Janesville, WI that were among the first in the state. Andrew helped the City of Beloit, WI and the Town of Menasha, WI communicate water rate increases to industrial customers and collaborate with those customers.

## **Wastewater Cost of Service & Rate Design**

Andrew has analyzed cost of service and designed wastewater rates in multiple municipalities in Lake County, IL as well as in New London, WI, facilitating proactive meetings with industrial customers to explain the need for rate changes and discuss the impact on customers.

### **Cost Sharing Agreements**

Andrew audited an inter-municipal water cost sharing arrangements for the City and Township of Marquette, MI and another for the Cities of Holland and Zeeland, MI. Andrew audited cost sharing bills twice between Xcel Energy and Southern Minnesota Municipal Power Agency. He also twice audited cost sharing bills among the three joint owners of the Redbud Generating Plant in Oklahoma.

## **Electric & Natural Gas Cost of Service & Rate Design**

Andrew prepared cost of service analysis and designed rates for municipal utilities around the country, aiding municipalities in Missouri, California, and Iowa. Andrew was a key communicator when performing a rate study for Gainesville Regional Utilities (GRU) in Florida, which included analysis for wholesale customers and electric generation owned by GRU. Andrew also prepared electric rate applications to the Wisconsin Public Service Commission for Richland Center, WI and New London, WI.

## **Water Cost of Service Expert Witness**

Andrew served as an expert witness in contest rate proceedings for Kenosha Water Utility and Milwaukee Water Works. His testimony covered customer demands, water for public fire protection, and the allocation of water mains and storage, among other areas. He helped the Village of Pleasant Prairie and the City of Kenosha voluntarily agree to beneficial operational changes despite their ongoing contested proceeding before the Public Service Commission.

# **EDWARD** F. MAXWELL

FINANCIAL ANALYST, Madison Location emaxwell@ruekert-mielke.com ● 608.819.2600

## **PROFILE**

Edward joined Ruekert & Mielke, Inc. (R/M) in 2017 as a financial analyst. Before joining R/M, he worked in private-sector finance, analyzing capital investments, forecasting expenses and revenue, and crafting department budgets. At R/M, he creates financial solutions for all clients, from municipalities to corporate businesses.

## **EDUCATION**

- Bachelor of Arts in English -Lawrence University, Appletor
- Master of Business
   Administration Corporate
   Finance & Investment Banking
   - Wisconsin School of Business
   Madison

## **EXPERIENCE**

## **Wastewater Cost of Service Rate and Design**

Edward has analyzed cost of service and designed rates for utilities for communities ranging from Thiensville, Wisconsin, to Erie, Pennsylvania. For Erie's utility, Edward forecasted the cash flow and the rate increases needed to fund the increased debt service from all the infrastructure upgrades required in the next ten years.

#### **RCA Studies**

Edward has conducted RCA studies and offered recommendations for fee schedules. Based on the study he performed for Hartford sewer, Edward proposed several alternatives that would ensure Hartford sewer's capital expenditures for new development would be fully funded.

## **Forecasting**

Edward has forecasted demand and expenses. Analyzing trends, he has forecasted demand for several products nationwide. He has forecasted expenses for departments at several corporations on line items, including obsolescence, marketing, and selling.

## **Capital Projects Evaluation**

Edward has analyzed numerous capital projects, including equipment to revamp the largest product line at Springs Window Fashions. Using the capital asset pricing model, he determined the rate of return on these investments.

#### **Ordinance Revisions**

Edward has revised ordinances for municipalities to ensure compliance with law changes and to reflect best practices. For Fox Point, he revised the storm water ordinances so that Fox Point was complying with NR 151 and had language that encouraged green infrastructure.

## **Budget Creation**

Edward has partnered with multiple departments in corporations to develop annual budgets. He helped the departments provide business cases to management to justify their proposed budgets. At Lands' End, he worked with marketing to solve a budget overage.

# MAUREEN A. MCBROOM

**ENVIRONMENTAL COORDINATOR**, Waukesha/Milwaukee Locations

mmcbroom@ruekert-mielke.com • 262.542.5733

## **PROFILE**

Maureen is dedicated to the protection and improvement of Wisconsin's resources through close collaboration with municipalities and their citizens. Efficient & effective implementation, driven by strong relationships and communication, are drivers behind her project implementation strategies. She has experience in the WDNR's Runoff Program, specifically issuing WPDES Permit coverage for construction site erosion control & long-term storm water plans, industrial storm water sites and municipal separate storm sewer system (MS4) permittees. Maureen has been with R/M since 2015

## **EDUCATION**

- B.S. Environmental Science
   Carroll College (University)
- Wetland Delineation Training -University of Wisconsin, LaCross

# REGISTRATIONS & AFFILIATIONS

- NASECA Certified Erosion Contro Inspector
- NASECA-WI Project Committee Co-Director
- Southeastern Wisconsin Watersheds Trust (Sweet Water) board member
- Founding member and co-chair of Southeast Region Green Tier Support Team (internal DNR team)
- Founding member of the Rock River Storm Water Group (2008)
- Former member of the Rock River TMDL Implementation Team (internal DNR team)
- Former co-chair of the Rock River TMDL Implementation – Urban Storm Water Sector Team (internal DNR Team)
- Former member of the Urban Storm Water Sector Team sub-committee to draft TDML implementation language for statewide MS4 permits

## **EXPERIENCE**

\*includes project experience prior to joining R/M

### **Storm Water Management Planning**

Drafted and developed community-wide storm water plans to manage storm water and improve water quality, specifically addressing TMDLs.

City of Oconomowoc, WI; Village of Dousman, WI; Village of Hartland, WI; Village of Fox Point, WI

### **TMDL** Implementation

Mid-Moraine Water Quality Collective - collaborating with municipalities, consulting firms, and non-profit groups to find costeffective and common sense solutions to water quality improvement goals in the Milwaukee River watershed

### **Waterway Improvement Projects**

Village of Sussex, WI - Spring Creek Daylighting project: assisted with grant funding, permit review for channel realignment and naturalization project; Town of Genesee, WI - Genesee Roller Mill Dam removal project: on-site daily during dam removal, channel realignment and stabilization; established and maintained new vegetation along channel and former mill pond

## Water Quality Planning

City of Waukesha, WI - Frame Park Creek / Upper (IL) Fox River Subwatershed; Mason Creek Sub-watershed, WI - Mason Creek River Protection Group

### **Additional Experience**

Past Member of the SEWRPC Regional Chloride Impact Study Technical Advisory Committee

SWWT Regional Green Infrastructure Roundtables - participant

Managed urban storm water grant program (construction and planning grants) for 3 counties

Assisted with drafting and revising Waukesha County erosion control and post-construction storm water ordinance through the Waukesha County Storm Water Advisory Council (SAC)

# **MAUREEN** A. SCHNEIDER

PROJECT ENGINEER, Waukesha Location

mschneider@ruekert-mielke.com • 262.542.5733

## **PROFILE**

Maureen is passionate about finding effective, efficient, and environmentally sustainable solutions to engineering problems. She has been employed with Ruekert & Mielke, Inc. (R/M) since September of 2017 as a Project Engineer. Prior to this, she graduated from Milwaukee School of Engineering in 2014 and received a Masters of Freshwater Science and Technology from the University of Wisconsin-Milwaukee in 2017. At R/M, Maureen is involved in a wide variety of projects, including the development of storm water management plans, WinSLAMM and water distribution system modeling, grant writing, regulatory permit applications, and other storm water and water quality improvement projects.

## **EDUCATION**

- B.S. Milwaukee School of Engineering, Milwaukee, WI, BioMolecular Engineering with Chemistry Minor
- M.S. Freshwater Science and Technology, UW-Milwaukee, Milwaukee, WI

# REGISTRATIONS & AFFILIATIONS

- Southeastern Wisconsin
  Watersheds Trust (Sweet
  Water) Bacteria Working Group
  Member
- Strategic Grant Development Workshop, December 2017, Milwaukee, WI
- Using WinSLAMM: Meeting Urban Stormwater Management Goals, February 2018, Madison, WI
- Waukesha County Storm Water Workshop Presenter: "Bacteria in Storm Water". March 2018.

### **EXPERIENCE**

# **Storm Water Management Plans and MS4 Permit Compliance**

Town of Norway, Town of Randall, Village of Saukville, Village of Fox Point, Town of West Bend, Village of Elm Grove

Maureen has contributed to the development of Storm Water Management Plans for the above communities. She also assisted the communities with other permit related requirements, such as annual reports, winter road management plans, illicit discharge programs, etc.

## **Waterway Improvement Projects**

## City of Greenfield, Village of Brown Deer

Maureen has worked on several stream restoration projects. Maureen has assisted in the Village of Brown Deer's efforts to remove concrete lining in Beaver Creek to naturalize the stream. She has also contributed to the Wildcat Creek Restoration project in the City of Greenfield. Maureen has worked on design aspects, acquiring necessary regulatory permits, as well as developing erosion control, vegetation, by-pass, spills, and de-watering plans for these projects.

## **Water Quality Modeling**

## Town of West Bend, Village of Saukville

Maureen contributes to water quality mapping and WinSLAMM modeling for municipal Storm Water Management Plans. This information is used to determine if the municipality's existing conditions are in compliance with regulatory requirements. If they are not in compliance, Maureen's modeling work includes developing new storm water solutions to help them meet their goals. An important part of this work is keeping open lines of communication between R/M, regulatory agencies, and the community staff. This ensures that the final product will be accepted by all parties involved. Maureen excels at timely, effective communication and developing good working relationships with clients.

# CITY OF PEWAUKEE COMMON COUNCIL AGENDA ITEM 13.

**DATE:** June 18, 2018

**DEPARTMENT:** Public Works

**PROVIDED BY:** Jeffrey L. Weigel, Public Works Director

#### **SUBJECT:**

Discussion and Possible Action to Send a Letter to the Rocky Point Road Property Owners Concerning a Possible Stone or Asphalt Shoulder Improvement Project [Weigel]

#### **BACKGROUND:**

Rocky Point Road was paved by the Town in 1998 under a project that pulverized the existing pavement and laid down 4" of asphalt over the pulverized pavement. Shortly after the construction of the project we realized that our decision to allow the peaty topsoil along the raised road bed resulted in a soft, often rutted grass shoulder. Several times in the past 20 years residents have asked the City to do something about the soft shoulders.

In fall of 2016 Street Division staff installed a test section of shoulder work, replacing the 3' wide grass shoulder with asphalt millings. Now, two years later that section appears to be holding up well. As a result, we are requesting authorization to send a letter to the Rocky Point Road property owners asking if they would be interested in our expanding this shoulder replacement in parts, or all of Rocky Point Road. The attached draft letter would be the first step in restarting the soft shoulder discussions.

#### FINANCIAL IMPACT:

At this point there would be no direct fiscal impact. If there is a positive response for large sections of the road for this shoulder replacement, then there would be future installation costs for consideration.

#### **RECOMMENDED MOTION:**

Common Council authorizes the letter inquiring on soft shoulder replacement to be sent to the Rocky Point Road property owners.

#### **ATTACHMENTS:**

Description

Proposed draft letter to Rocky Point Rd property owners

# **Department of Public Works Engineering Division**

W240N3065 Pewaukee Road Pewaukee, WI 53072

Phone: (262) 691-0804 • Fax: (262) 691-5720

Email: publicworks@pewaukee.wi.us

| June, 2018   |
|--|
| Dear   |
| Rocky Point Road was last paved in 1998, and this work raised the elevation of the road pavement by about 5". The gap created by the raised road edge was then filled with topsoil. These topsoil roadside shoulder areas have been a maintenance problem since, with frequent rutting by vehicles either parking or traveling off of the paved edges.   |
| A potential solution for the roadside rutting is to remove the topsoil shoulder and instead fill in this 3' wide shoulder area with stone beneath asphalt millings. In October of 2016 we worked with two homeowners on the east side of Rocky Point Rd using these asphalt millings in front of their homes (the third and fourth house north of CTH SS on the east side of Rocky Point Road). This test section of shoulder appears to be holding up well through 2 winters and has no ruts. |
| The purpose of this letter is to ask Rocky Point Road property owners if they would like an asphalt milled solution installed in front of their property. We do not anticipate there would be an assessment to property owners for this correction. We welcome your comments by letter, e-mail ( <a href="mailto:publicworks@pewaukee.wi.us">publicworks@pewaukee.wi.us</a> ) or telephone by July 20th. Please include your address in any communication.                                     |
| We do not plan any shoulder work in those segments of Rocky Point Road that currently have concrete curb and gutter at the road edge.  |
| We will summarize the comments received and advise the Common Council at the August 6, 2018 meeting.   |
| Sincerely,   |
| Jeffrey L. Weigel, PE<br>Public Work Director/City Engineer  |

# CITY OF PEWAUKEE COMMON COUNCIL AGENDA ITEM 14.

**DATE:** June 18, 2018

**DEPARTMENT:** PW - Water/Sewer

**PROVIDED BY:** Jeffrey Weigel, Public Works Director

#### **SUBJECT:**

Discussion and Possible Action to Authorize the City Staff to Send a Letter to the Oak Street and Peninsula Drive Property Owners Inquiring, or Informing on the Intent to Install Municipal Water as Part of the Proposed Road Reconstruction Project [Weigel]

#### **BACKGROUND:**

Oak Street was last paved in 1996 with pulverizing the asphalt base and laying down 4" of asphalt. Peninsula Drive was reconstructed in 1991 with the full removal of the asphalt and gravel base, installation of 10" of crushed stone and 4" of asphalt.

The drainage along both streets is poor, with little available pitch, close exposure to lake water levels, and subsoils that are susceptible to expansion and contraction due to moisture and frost. You may recall that significant sections of Oak Street and Peninsula Drive were submerged by the Pewaukee Lake flooding for several weeks in 2008.

The Common Council approved the attached letter at the Feb. 6, 2017 council meeting; however, we did not send the letter for two reasons: 1) the paving project was delayed to 2019 for budget purposes; and 2) the letter suggests significant changes to the special assessment commencement polices that had not been vetted by Council. We bring this back to the Council for consideration, understanding that several questions may need answers:

- 1) What is the City policy moving forward on extending public water in areas where street reconstruction projects are considered?
- 2) Will the local residents dictate whether the water is extended? Or, will it be City policy to build the water at the time of street reconstruction regardless of the local public opinion or vote?
- 3) If the City decides that the local vote will determine if the water is extended in the area, and if that vote is no--or not at this time, should the City continue to plan and construct water infrastructure such as water towers, transmission mains and wells to eventually provide service to these areas?
- 4) What should the commencement date be on the water main special assessments?

The Common Council was briefed earlier this year on the fiscal status of the City Water Utility. We also indicated that making a paradigm shift in the policies of water main extension special assessments may be a slow process. The street pavement condition of Oak and Peninsula suggest that repaving should occur soon. The lack of municipal water in this more densely populated (by homes) area of the City. Public water may be more needed to safely serve this area in the near future, and public water certainly improves fire protection in this area.

#### FINANCIAL IMPACT:

The fiscal impacts could be many, dependent on what outcome is ultimately decided by the Council.

Should the Council opt to continue with past practices and not authorize the water installation, then the costs of the water towers, transmission mains and wells that have been constructed to serve the City as a whole will not be recovered for some period of time, perhaps 25 years or more while the City waits for the neighborhood to opt into the water system. Consideration should then be given for not planning to serve this area for an extended period of time and not including future costs of water system improvements for this area in the planning.

Should the City opt to continue with past practices of putting the water main in, but not requiring the payment of special assessments until the property opts to connect would increase the significant expenditures for water with no expected cost recovery date.

Should the City opt to change the special assessment practices to require the payment of at least the pipe special assessments to commence at some known date, such as within 1-year of installation (suggested in last year's draft letter) or say 5 years (similar to our sanitary sewer special assessment policy) then the accounts would be able to report the expenditures and anticipated cost recoveries in our regular reports.

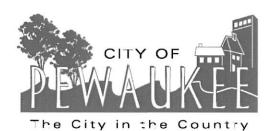

#### **RECOMMENDED MOTION:**

Staff recommends that we begin to change our water special assessment policy with this project by sending a letter to residents stating that we are planning to construct the water main in Oak Street and Peninsula Drive as a part of a future road construction project, anticipated in 2019, and that special assessments would be levied for the water project as well as the street project, and that the water assessment payments would begin after 5 years from installation, and payable over the next 10 years (years 6-15 after water installation). Connection would be voluntary.

#### **ATTACHMENTS:**

Description

Draft letter and issue from Feb 2017

## **Department of Public Works**

TO: Common Council

FR: Jeffrey Weigel, Public Works Director

DT: January 31, 2017

RE: Authorize letter inquiring on interest in municipal water service for Oak Street & Peninsula

Drive

## REQUESTED ACTION:

Common Council authorizes staff to send a letter to the property owners on Oak Street and Peninsula Drive inquiring on the level of interest in the City installing municipal water services as a part of a future street paving project.

#### RATIONALE:

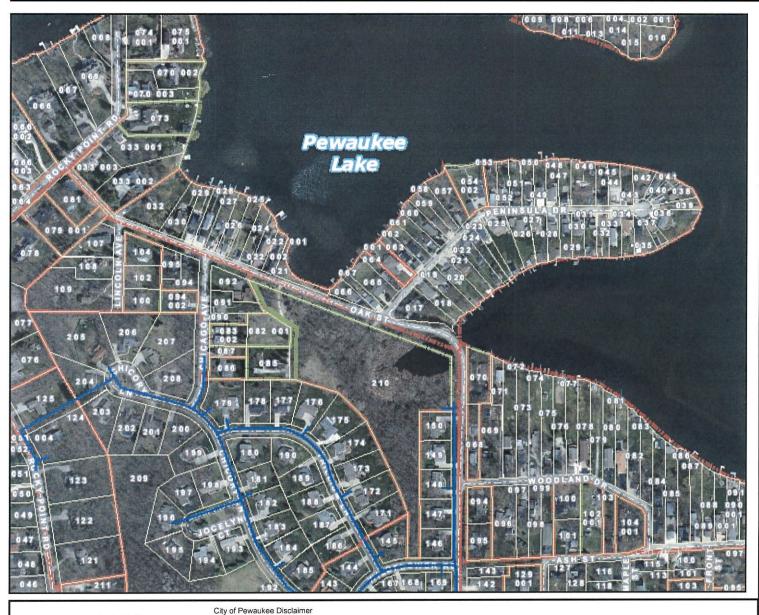

In recent Capital Budget proposals for road projects, we have included the reconstruction of Oak Street and Peninsula Drive in the lake region. 2017 is a year for engineering design and 2018 is anticipated for street reconstruction.

The general project limits are Oak Street between Rocky Point Road and Woodland Drive, and all of Peninsula Drive. Please see the enclosed air photo. This area is generally rural in nature (ditches) and very dense in homes. All homes are served by sanitary sewer constructed by the Lake Pewaukee Sanitary District (LPSD) and private wells. The existing municipal water is shown in blue, limited to the homes constructed as a part of the Rocky Point subdivision. As a part of the design process in these types of areas, we recommend sending a letter similar to the enclosed Draft letter to inquire if any of the property owners are interested in municipal water. This is particularly important given the high groundwater in the area, and it would be very expensive to add the water mains after the road is reconstructed, must likely resulting in the total reconstruction of the road pavement and road base should water be added at a date after the 2018 project.

Notes:

Printed: 1/31/2017

| February, 2017   |
|--|
| To the residents along Oak Street, Lincoln Avenue, Chicago Avenue, and Peninsula Drive:  |
| The City is planning to reconstruct Oak Street, Lincoln Avenue, Chicago Avenue, and Peninsula Drive in the near future. It is prudent to ask the residents in this area if there is an interest in obtaining municipal water service prior to the road construction project. Along with this letter you will find a post card "ballot" to use to express your wishes on the water issue. Please mark the ballot and return it to the City Hall Public Works Department by We will bring the results of the ballot or survey to the Public Works Commission at the meeting (6:00 PM, City Hall Council Chambers). We will ask the Commission for the authorization to prepare the water plans if a majority of the residents were to respond in favor of the water. If a majority respond against the water, we will recommend canceling the water main project.  |
| Please note that these ballots are used only to see if there is enough interest to authorize the engineering. A "yes" vote does not make a commitment to approve the water. If the water engineering is authorized, a Public Hearing will be held after the plans are prepared and bid. At that time, the Common Council will make the decision to approve or reject the water project, based on the public input before and during the hearing. Many projects are carried to the hearing stage only to be rejected by the residents and Council.  |
| The costs of the water main pipes, hydrants and service laterals are paid by the residents through special assessments. Our consulting engineers have estimated the cost of these assessments to be between \$8,000 and \$10,000 per home. Connection to the water system is voluntary, but payment of the assessments will begin within one year of installation, and can be spread over ten years. Should you choose to connect to the water system, another assessment (hook-up fee) of \$4,397 (201 6 rate) will be due. The hook-up fee is required only at the time of connection. You will also have costs associated with the work your plumber must do to connect to the water. You may keep your private well for watering your yard if your well and plumbing meet the code requirements and a permit is obtained from the City. Finally, as a water customer, you will receive a bill every three months. Our rate is \$2.83 for each 1000 gallons of water plus a fixed meter charge. A "typical" home would be billed somewhere around \$66 per quarter (\$22 per month), depending on how much water you use. |
| We realize that this may be a confusing issue. Please feel free to attend the March 11 <sup>th</sup> Public Works Commission meeting or call us if you have questions.   |
| Sincerely,   |
| Jeffrey L. Weigel, PE<br>Public Works Director   |

| Koepp, Thomas - Lake Pewaukee Sanitary District | 5/2/2011    | 5/2/2011     | Indefinitely |

Created upon discussion at the Common Council meeting on 2/2/2009. A termination needs to be made on the make-up of committee members and the purpose of the group. Town of Delafield has different opinion on the appointment of Thomas Koepp and doesn't believe he belongs on the committee. Whereas we wanted someone from the LPSD to serve on the committee for times when the water levels were too high to help determine safety.
