Bill Nordstrom (W223 N4647 Seven Oaks Drive) stated he was there representing the other neighbors in the Woodleaf Reserve subdivision. He asked if the Council was planning on creating a quiet zone at the crossings on Weyer Road and Duplainville Road. He also called attention to the inaccuracies of the Department of Transportation (DOT) inventory form in regards to the train activity in the area. He said they list sixteen trains going through the area between the hours of 6 a.m. – 6 p.m. and zero between the hours of 6 p.m. - 6 a.m. and he said there were at least five that go through blowing their whistles. Mr. Nordstrom also voiced his concerns about the trains blocking the intersection for long periods of time and how that affects emergency vehicles. He asked what is being done.

Mayor Bierce stated unfortunately this item was not on the agenda so no discussion can take place.

Gerald Clocka (W273 N1582 Lakeview Drive) he stated he has concerns over the proposed density related to the Stenz development. He stated there are going to be 54 families squeezed into 18 buildings. He said that is going to change the character of the current single family subdivision. Mr. Clocka asked neighbors to sign a petition opposing the rezoning from agricultural to multi-family. He handed the documents to the City Clerk. He also stated he was aware of a letter written by the Lake Pewaukee Sanitary District (LPSD) voicing their concerns regarding the density and the water table.

Attorney Riffle stated staff is waiting for more information. He believes the topic will be tabled to another specific date and time. Mr. Klein stated it is very likely that the proposal will be changed.

Mr. Fuchs stated staff is recommending this item be tabled. He said the Plan Commission, at their February meeting, tabled the review of their building and site plans which are related to the
conditional us. He said Lake Pewaukee Sanitary District (LPSD) and the applicant are working on the development and there may be changes and it is unknown how significant they may be. Mr. Fuchs commented that it was likely the project would go back to the Plan Commission in April and everything will be brought forward to the Common Council on May 6th.

Mr. Kara asked why LPSD is involved with determining what happens to this development. Mr. Fuchs stated they have to approve the sewer extension.

He said City staff is still waiting for the Department of Natural Resources to review the plans and comment on the building. Mr. Fuchs stated he is confident in staffs’ review of the City’s ordinances that the requirements are being met subject to the conditions outlined in the staff report.

Mayor Bierce opened the public hearing, Mr. Wills stated if they have to move the foundation back it would only need to be by two feet. They will then crush up the original foundation and use it as the gravel that the new foundation would be poured upon. Mayor Bierce closed the public hearing.

Mr. Kara asked if the neighbors had any concerns. Mr. Wills stated no one indicated there were concerns.

A motion was made and seconded, (B. Bergman, B. Dziwulski) to approve the Conditional Use Permit subject to DNR approval and staff recommendations being met before issuing a building permit. Motion Passed: 6-For, 0-Against.

from B-5 Highway District to Rs-7 Single-Family Residential for the Purpose of Combining Property and Building an Out-Building as Requested by Tom Knutson

Mr. Fuchs stated the applicant wants to rezone the property to the west of the 5 o’clock Club and a portion of the single family property to the west of that. It will correct a split-lot zoning issue. Mr. Fuchs stated once it is rezoned the applicant has a Certified Survey Map to combine the parcels and create an out-lot on the northern portion. He said he believes the future plan will be to attach that out-lot to the single family property to the north.

Ms. Brown asked if there were any tax implications by changing the zoning. Attorney Riffle stated that is up to the Assessor. Mr. Kara asked why the Knutsons are asking for this change. Mr. Fuchs stated it is to create a large lot on a single family parcel to build a garage in the future.

A motion was made and seconded, (B. Bergman, B. Dziwulski) to approve Ordinance 19-10 subject to staff recommendations. Motion Passed: 6-For, 0-Against.

Mr. Fuchs stated this was combining the two properties and creating an out-lot on the north end which is anticipated to be joined to the single family lot on the north.

A motion was made and seconded, (B. Bergman, B. Dziwulski) to approve the Certified Survey Map contingent on staff recommendations. Motion Passed: 6-For, 0-Against.

Mr. Fuchs stated at the Plan Commission meeting on September 20th, 2018, approval was given to build a 12,157 square foot industrial building conditioned upon returning with a certified survey map to combine the parcels which would resolve the internal property line issue, which will further take care of building setback and parking issues.

Mr. Fuchs stated this is a land division. Mrs. Uebele wants to take a single parcel and divide it into two separate lots for single family residential development. Staff is recommending approval with one condition related to the existing barn. He said the barn is located right up to the existing right-of-way and would be within needed future right-of-way. The applicant is requesting to keep it for the time being. Mr. Fuchs stated the condition is to require a development agreement which would allow the barn to remain unless lot #1 is either developed, sold or the City needs to widen Lindsay Road. He said it is non-conforming due to the setbacks.
Ms. Brown stated there seems to be other issues, such as getting sewer from the Village. She mentioned the property seems to be messy and needs to be cleaned up as well. Mr. Fuchs stated staff is working with the property owner on the cleanup and at this point no official enforcement proceedings were needed since the property owner is attempting to take care of the issues. He said before a building permit would be issued, staff would make sure the property is in compliance to zoning and property maintenance standards.

Mr. Kara asked if this item should wait until approval for sewer is granted by the Village. Mr. Fuchs stated it is his understanding that the property owner is speaking to the Village and an agreement has been made. He said another condition could be added to the CSM; requiring sewer from the Village before the CSM could be recorded.

**A motion was made and seconded, (C. Brown, J. Kara), to approve the certified survey map contingent upon staff recommendations regarding an approved developer’s agreement related to the barn and right-of-way, proper maintenance of the Uebele’s two properties and the property owner securing an agreement with the Village for sewer services, and delegating staff to verify these conditions have been met.** Motion Passed: 6-For, 0-Against.

11. Preliminary Discussion Regarding the Request of Briohn Builders to Vacate the Northmound Right-of-Way

Mr. Fuchs stated this request is due to a new proposed development of a 131,400 square foot industrial building in that area. The vacation would assist the property owner with their site plan and storm water management requirements.

He said the right-of-way vacation is a lengthy process and tonight was simply an explanation of the procedures that needs to take place. He said staff is not objecting to the vacation. The City has no anticipated future use of the entire current right-of-way.
